...AY SETTLE ...STEEL STRIKE

...erence of Strikers and Officials ...aid to Have Furnished Basis.

...E OF EARLY SETTLEMENT

...rees Decline to Give Out Information---Meeting of Amalgamated Executive Board Tomorrow.

...York, July ... The crisis of the ... workers of the Amalgamated ...ation against the United States corporation will probably ...this week. The conference ... Saturday between ... the United States corporation ... President Shaffer and ... Williams of the workers ... has resulted in paving the ...way of negotiations between ...contending interests. It is ...basis for the conference ...rted at. The basis will not ...until later this week. If ...satisfactory to the general committee of the Amalgamated ...the conference between ...and the managers will ...at once. If, on the other ...this is not what the Amalgamation considers negotiable ...the strike will continue. ...Shaffer and Secretary Williams ...Amalgamated association ...New York this morning. ...many holding conference ...among officials of the steel ...here hoping for an ...of the strike. In Pittsburg ...was known of the conference ...greatest interest in the ...shown among the manufacturers. Vice President Bope of the ...steel company, said that he ...country nothing of the ...did not know that the conference ...W. Jenks, general ...the American Steel Hoop ...and Superintendent Harper of ...Pipe Company, were equally in the ...

Shaffer was seen this evening ...absolutely to talk in ...his trip to New York. ...Williams was found at his ...Pittsburg. He admitted that ...with President Shaffer in ...and had seen J. P. Morgan, ...say what had taken place ...but he was pledged to secrecy ...if the terms as printed ...this morning which covered ...settlement of the strike were ...that ... were pure... No terms could possibly ...without the full consent of the ...executive committee of the organization. It is learned here that a ...the executive board has ...for Tuesday.

...information regarding the ...the chairman of the industrial ...after word passed up from ...It was stated that the ...officials left Pittsburg ...night and when they ...New York went ... the Morgan ...vate office of Mr. Morgan. The meeting between the Pittsburg men and Mr. Morgan lasted from about 11 o'clock in the morning until 4 o'clock in the afternoon. At no time did the conferees adjourn to the offices of the United States Steel corporation. During the conference President Schwab and Judge Gary were present most of the time. Another conferee was Mr. Dawkins, one of Mr. Morgan's partners. The Amalgamated officials directed their attention almost entirely to Mr. Morgan and President Schwab. They went over the grounds on which the strike began and discussed a settlement basis. After exchanging views with the steel officials Mr. Shaffer and Mr. Williams left the office. In explanation of the hasty flight of the two officers to New York, it was said that until nearly 5 o'clock in the afternoon neither of the officers knew that they would be required to leave Pittsburg. When Colonel Harvey left, the invitation to go to New York had been extended and had been accepted. It was positively stated that the meeting between the heads of the Amalgamated association and the United States Steel corporation was due to no other person or persons than Colonel Harvey.

Secretary Williams today denied that M. M. Garland or Joseph Bishop had anything to do with the conference in any way so far as he knew. It is believed that before the end of the week the mills will all be ready to run again providing repairs undertaken since the strike began are done. Should the whole whole project fall of coming to an amicable end, however, the fight promises to be more bitter than ever.

New York, July 28.—There was no news concerning the steel strike obtainable in New York today for the reason ...Some of the magnates most interested was in the city. President Schwab also kept away from his apartments during the day and up to a late hour tonight.

MOLDERS IMPORTED.

Sharon, Pa., July 28.—The American Steel Casting company yesterday imported another carload of molders to fill the places of strikers. The men were brought from the eastern part of the state in a special car. The strikers made no demonstration on account of the injunction secured against them in the courts. The company expects to import another carload this week. It is not probable the grievances of the men will be arbitrated for some time, as the company seems determined to break the strike without making any concessions.

...IO GAMBLING HOUSES WILL REMAIN CLOSED

...the Gazette.

...July 28.—There was no ...in the gambling situation ...reiterated tonight ...for the gambling houses ...not to open for business to-...morrow would be adhered to, ...that the chief of police had ...that it was obeyed. ...that proprietors of the ...and the Turf Exchange ...order and will not attempt ...open up. Link Gray the ...precipitated the climax by ...to open up a gambling ...the Oriental in defiance of ...the city authorities not ...that he will not try to ...like the others do not ...machine in the city is in ...owners are prepared ...the machines out of the ...shop proprietors have ...not to do business, and ...will keep a close watch on ...rooms.

...made a statement tonight ...that he had ...money from the gambling ...to operate in Pueblo, and ...the Turf Exchange ...reached by parties ...and offered $1,500 for ...the Turf. If I would ...operate here any more. ...the offer but said I would ...and would agree not to ...more during that administration ...as in the latter part ...administration. ...was certified at once, ...no agreement attached, to ...have always said that I ...intended to open as soon as the Oriental was completed.

Sentiment generally is that Link Gray, and not Mayor West, is responsible for the shutting up of gambling. Gray went to West shortly before 1 o'clock Saturday and told him he intended to open. The mayor tried to persuade him not to do so, but shortly after noon Gray's tables were in operation. Chief of Police Griffin was not given the order until 4 o'clock in the afternoon and Gray was not arrested and his place closed until 10 o'clock that night.

Very few prominent Democrats will make the claim that the action of the mayor was in keeping with the so-called pledge made in the Democratic platform last spring, and the issue direct of the election was a wide-open town. The order created considerable surprise in all circles as it had been generally thought that the election settled the question for the next two years at least. Mayor West was asked tonight whether the order was issued to keep the campaign pledges and whether it would have been issued, Gray's action to the contrary notwithstanding, and he refused to discuss the matter.

All of the paraphernalia in the gambling houses is still in place and it will not be interfered with so long as the owners do not undertake to operate it. Link Gray and his employes and George McKenzie are still under bond, but it is said that they have been told that they need not appear. The sporting element seems to think that Mayor West means business and that there will be no more gambling in Pueblo at least for some time.

...RUST IN GERMAN FINANCIAL CIRCLES

...—The weekly financial ...confessions of finan... The Kreuz Zeitung begins ...passes without revelation ...mismanagement in some ...company. A feeling of ...therefore burdens the ...classes, growing heavier ...The German name is target ...foreign countries for ...whole nation must suffer ...sence."

...Zeitung says: "Swindles like those of Schmidt ...can be performed only in ...financial credulity such as ...have just had."

...Zeitung complains that ...evident of the market is ...a growing distrust which ...looking for irregularities ...the mismanagement of com...

...of the week's market is mirrored in the foregoing quotations. The causes were the publication of the condition of the Leipsiger bank showing a state of things much more rotten than had been expected, the Tellinden revelations, which caused heavy losses to various banks and forced the liquidation of the Rheinische bank and of a private bank in Crefeld, the run on a savings bank in Hanover, the curtailment of hours in the Westphalian coal mines, and finally the tariff, which the bourse regards as a national calamity.

The domestic crop reports also reacted unfavorably, and the combination made an exceedingly depressed market for all industrials.

The only strength the market displayed was in domestic government funds. Imperial and Prussian threes gained 50 pfennigs on the week. The monthly statement, is passing under unusual money market conditions, the private rate of discount on call loans relapsing in the very middle of the settlement to the lowest points since 1896.

The Frankfurter Zeitung ... that much money, chiefly French, arrived for investment in contangoes. At the meeting of the directors of the Reich bank last Friday Herr Koch announced that 15,000,000 marks in foreign gold had entered the bank during the week. He pointed out that the gold stock had increased during the year 232,000,000 marks, that discounts were 207,000,000 marks higher than a year ago, owing to the various insolvencies.

Thus far the settlement has revealed an unexpectedly large short interest in bank stock. The latter rose considerably yesterday in consequence of covering by shorts.

American railway securities were more active than usual and there was special activity in Canadians. This movement, however, was wholly dependent upon New York and fluctuated sharply.

The German revenue from customs and international duties for the June quarter showed a decline of 10,500,000 marks. Germany's foreign trade for the first six months of this year shows imports 2,384,000,000 marks, a decline of 106,500,000 marks, and exports, 2,255,000,000 marks, a decline of 73,000,000 marks. These values are estimated from the prices of 1900, except in the cases of grain, flour and wool where they are estimated on the actual prices.

PRESS CENSORSHIP IN GREAT BRITAIN

London, July 28. The Daily Mail makes the following statement today:

"In consequence of the Daily Mail's publication of the fact that the Boers killed British wounded at Vlakfontein, all cables from the correspondent who made the charges have been repressed. It also asserts that Mr. Broderick, the war secretary, is using the Daily Mail's publication of Lord Kitchener's new plan of campaign as an occasion for the insinuation that we obtained the news of Lord Kitchener's scheme by purloining documents at the war office, and has cut off the Daily Mail's daily lists of casualties, having also informed the Daily Mail in writing that he had warned the news agencies under contract with the Daily Mail not to supply the paper with casualty lists or other official news.

AMBASSADOR CHOATE GOES TO HOLLAND

London, July 29. U. S. Ambassador Choate has left London for Holland, says the Daily Express, not for a holiday, but, so rumor states, at the invitation of Mr. Krueger, who desires him to act as mediator in bringing about a settlement. It would naturally be supposed that a settlement could not take place without the irreconcilable Dr. Leyds. Mr. Choate has gone to Holland, Dr. Leyds has left the country for Brussels, starting Saturday.

No importance is attached to this rumor by the Daily Express for the sole reason it refers to it editorially in a facetious vein as a South African gooseberry.

APOSTOLIC DELEGATE.

New York, July 28.—Among the passengers on the steamship La Champagne which arrived today was the Most Rev. Monsignor Arsaello Davani, an archbishop of the hierarchy and apostolic delegate to the republic of Peru and Ecuador. The prelate is en route for Quito, Ecuador. It is his first visit to America and before starting on his mission he will remain in this city a few days as the guest of Archbishop Corrigan. An emissary from the archbishop's palace received Mgr. Davani at the pier and escorted him to the palace.

INSURGENTS ARE ACTIVE.

Kingston, Jamaica, July 28.—Newspaper reports received here from Panama assert that the insurgents are operating in large numbers in the vicinity of the city and that an order has been issued by the government calling upon the citizens to repel attacks and protect property. Panama is guarded from the sea by a gunboat.

According to the same source of information the government is exercising the strictest precautions to prevent news of developments leaking out.

MONROE WON AT VAILSBURG.

New York, July 28.—About 4,000 spectators witnessed some exciting sport at the Vailsburg track today. The five mile motor-paced race between John King and Ben Monroe, of Mobile, Ala., was the feature. Monroe won both heats and in the second announced that he would try for the record made by Elkes at Manhattan beach on Saturday. Monroe rode steadily throughout and finished strong, making the distance in 7:27. The old figures were 7:47 4-5.

The 25-mile unpaced (amateur) race was won by Edward Forrest of Brooklyn in 1:00:39, a new world's amateur record.

ELKES AND MICHAEL MATCHED.

New York, July 28.—Harry Elkes and Jimmy Michael have been matched to ride a 15 mile motor-paced race on the Asbury Park cycle track August 8.

BISHOP OF DURHAM DEAD.

London, July 28. The Right Rev. Brook Foss Westcott, bishop of Durham, is dead. He was born in 1825.

THE SHAMROCK II. COMING.

London, July 28.—A dispatch from Tuscar Rock, off the southeast coast of Ireland, in St. George's channel, says that the Shamrock II, and the Erin, which left Gourock yesterday for New York, passed at 8 o'clock this morning westward bound.

ROW AT A PARK.

Cleveland, Ohio, July 28.—In a row at Forest City park late last night, Otto B. Seefred, manager of the park, it is claimed shot into the crowd who were raising a disturbance and fatally injured Thomas Murtaugh. Edward Yarnham was shot in the knee, but not seriously injured. Seefred was arrested.

MAD MULLAH ROUTED.

Aden, Arabia, July 28.—In a fight between the Mad Mullah and the British July 17, the former was routed, leaving 70 killed. The British casualties were Lieutenant Fredericks and 19 men killed, and Lieutenant Dickson and 20 men wounded.

NEW MONTE CARLO.

London, July 28.—"Buda Pest papers are filled," says a dispatch to the Daily Express from the Hungarian capital, "with accounts of a project to be promoted by American financiers, for the creation of another but more luxurious Monte Carlo on Margarethen island, opposite the upper end of the city in the Danube."

THIS IS THE DAY TO DECORATE

Every House, Store, Hotel and Office Building in the City Should Be Decked in Color at Once.

Beginning this morning Colorado Springs people should turn their attention to one subject and keep it there until the work involved has been completed.

This subject is decorations.

The Elks have started the ball rolling by suspending in front of their lodge headquarters two magnificent flags which can be seen for the full length of Tejon street.

The Antlers yesterday hung to the breeze several handsome flags that added wonderfully to the attractiveness of the hotel.

Colorado Springs is to entertain Colorado this week and the city must be put in gala attire as it never has been put before. The celebration as a whole and each particular feature of it is vastly superior both in conception and in execution to anything of the kind ever attempted in this part of the country before and the decorations on the houses, banks, business blocks and residences of the city at large must be in the same relation to former events.

A flag or two and a little bunting will make a wonderful difference in the appearance of any building in town and no building of any character should be without at least this much decorating.

The thousands of people who are going to visit the city during the week should be made to feel that there is no one in Colorado Springs who is not glad that they are here, and there is no easier, cheaper or more effective way of demonstrating this fact than by adorning your place of business or residence or both with a little color.

The time is at hand.

Let the work be done today.

THE SCHLEY INVESTIGATION

Son of Rear Admiral Schley Speaks of the Impending Inquiry.

Salt Lake, Utah, July 28.—The Herald tomorrow will print the following:

Captain Thomas F. Schley, eldest son of Admiral Winfield S. Schley, who is stationed at Fort Douglas, in this city, yesterday outlined some points that will be brought out in the court of inquiry into his father's conduct at the battle of Santiago. He declared that some startling facts will be brought to light if the whole truth shall become known and that the reputations of persons other than his father are likely to suffer.

"I have just written to my father," said Captain Schley yesterday, "that I thought he ought to spare nobody and that he should withhold none of the facts in his possession about Admiral Sampson or anybody else."

Captain Schley is an officer of the 23d infantry in command at Fort Douglas. Although he has not had a letter from his father since the court of inquiry was ordered, he is familiar with the question at issue and pointed out some of the facts that will be urged in the admiral's defense.

"When the court of inquiry meets," said Captain Schley, "I would like to have the privilege of asking Admiral Sampson just one question: 'If the battle of Santiago had resulted in defeat, to whom would the blame have been attached?' This, I think, tells the situation in a nutshell. If Admiral Schley had lost the battle he would have been blamed. He won it, and he should have the credit.

"The accusations that are made are ridiculous when they are investigated. Take, for example, the charge of disobedience of orders in May, 1898. An attempt has been made to saddle the responsibility on my father. The fact is, that he had a letter from Admiral Sampson telling him to do exactly what he did and this letter will be produced at the inquiry. At that time he was maintaining the blockade of Cienfuegos. Secretary Long wired Admiral Sampson, strongly advising that the blockading fleet go to Santiago in the hope of fining the Spanish fleet there.

"Admiral Sampson sent the dispatch to Admiral Schley with a note in which he said: 'After duly considering this telegram I have decided to make no change in the present plans, that is, that you should hold your squadron off Cienfuegos.'

This letter was suppressed.

Regarding the maneuvers of the Brooklyn at the time of the battle Captain Schley says the facts all go to show that this was the best possible move under the circumstances. The part he played by the Brooklyn in the battle certainly compared favorably with the New York, I think.

"If this inquiry is full and fair," declared Captain Schley, "some facts will be disclosed that will startle the public. My father has several strong cards up his sleeve and I trust he will make use of them all."

Captain Schley enlisted in the army in 1884 and was appointed a second lieutenant in the Twenty-third infantry seven years later. He has served with his regiment all through its campaigns in the Philippines where he earned his captaincy. Since his return from the Philippines he has been stationed at Fort Douglas.

COMMENT ON THE GERMAN TARIFF

London, July 29. The draft of the new German tariff has caused great excitement in interested circles throughout Austria-Hungary," says the Vienna correspondent of the Standard, "because the tariff threatens exports of barley, oats, cattle and timber. Some papers assert that a commercial treaty between Austria-Hungary and Germany will be impossible if the proposed enormous increase in duties is persisted in. Others take the matter less seriously regarding the extravagance of the new duties as the best security that they will not become law."

Vienna, July 28.—The Fremdenblatt, the organ of the Austro-Hungarian foreign office, commenting on the proposed German tariff law, says:

"Germany, Russia, Austria, Russia and the United States will be ready to undertake it."

London, July 28.—The publication of the German tariff bill has caused considerable depression in government circles here," says the St. Petersburg correspondent of the Daily Mail. M. De Witte will certainly institute reprisals if the bill becomes a law.

SOCIALISTS WILL HOLD CONVENTION

Indianapolis, July 28.—The largest convention of Socialists ever held in the United States will assemble tomorrow, called by the executive boards of two divisions of the Social Democratic party for the purpose of uniting the two factions and adopting a new name for the united organizations.

Delegates from almost every state in the union have reached the city. Puerto Rico also was represented while the western states particularly sent a number of men to attend. It was said tonight that the convention will succeed in reuniting the factions drawing in the independent state organizations and adopting a new name and a new platform.

The platform, it was predicted, will be more emphatic in its denunciations of the sovereignty of capital and more radical in its assertions regarding the fundamental socialistic ideas.

REAR ADMIRAL IRWIN.

Washington, July 28.—Rear Admiral John Irwin, retired, died at his residence here late tonight after an illness of several months, due to a complication of diseases. He was 69 years old. He entered the naval academy in 1847 and had a good war record. He leaves a widow, a daughter and one son, John Irwin, paymaster on the Essex, now stationed at Newport.

NEWS FROM DAWSON.

Victoria, B. C., July 28.—The steamer Islander from Skagway had passengers who came from Dawson in less than six days, breaking past records. She brought $70,000 in gold.

The steamer Princess Louise brings news that the salmon run is improving in the north. On river inlets the fishermen are taking 150 to a boat and up to the boat on the Skeena. About three miles from Victoria monster schools of salmon were passed going up the straits from the Pacific. The water was thick with fish for over a mile.

News was brought of the death of J. H. Alexander, collector of customs at Port Simpson.

The steamer Queen City has arrived from the west coast of Vancouver island bringing a small amount of gold from the Wreckbay mines.

SPANISH ANTI-CLERICALS.

Madrid, July 28.—Anti-Clerical meetings held today in connection with the promulgation of the law of 1837 suppressing convents and monasteries resulted in disorders in Madrid, Saragossa and Barcelona. The police charged crowds who shouted "long live the republic" and "death to the Jesuits."

Numerous arrests were made.

EGGLESTON RETIRES.

Chicago, July 28. C. H. Eggleston, for many years one of the prominent figures on the board of trade, has formally retired from the exchange by posting his membership for transfer. Mr. Eggleston played a conspicuous part in the noted produce trades: the Harper wheat deal and the famous Fairbanks-Cudahy lard corner.

LOUISVILLE FIRE INJURED MANY

Louisville, Ky., July 28.—It developed that Max Belovitch, the cigar manufacturer, who lost his life in the fire that destroyed the Badgely-Graham photographic supply store last night, dashed up the stairs to save the life of a young woman to whom he was greatly attached and who, he thought, was in a flat above. Policeman James Purdon, who also lost his life, went upstairs in the burning building in an effort to save Belovitch. Fire Captain Timothy Lahan, Fireman Burnett Hardin, Charles Brown and Harry Swain and Policeman John Hepp, were injured either by being overcome by heat or smoke or by falling into the cellar of the burning building. None of them is supposed to be seriously hurt. The pecuniary loss is small.

FLEET OF PACIFIC STEAMERS PROJECTED

Salt Lake, Utah, July 28.—The Herald today says: The San Pedro road is not to stop at the San Pedro harbor. By the time the last spike has been driven a fleet of ocean steamers will be flying the flag of the Hawaiian Island Navigation company as an adjunct to the road. These steamers will ply between San Pedro harbor, Honolulu, Yokohama, China and the Philippines and a controlling interest in the stock of the company will be owned by the same men who control the San Pedro, Los Angeles and Salt Lake railroad.

"Many details yet remain to be perfected," said Mr. Kerens, "but the steamship line is a certainty. The steamers will work in conjunction with the road and be practically a part of the same corporation."

RADCLIFFE SUMMONED TO WASHINGTON

Denver, July 28.—William Radcliffe, owner of the lease on the Grand Mesa lake in Delta county, has been summoned to Washington for consultation with the state department. This gives an international aspect to the recent shooting of two men by a deputy game warden and the burning of Radcliffe's hotel and the threatened lynching of himself by a mob of Delta county citizens.

Radcliffe claims to be a subject of King Edward and has appealed to his government to protect his life and have him reimbursed for the loss of his property.

RUSSIA MAKES A DEMAND ON TURKEY

Constantinople, Saturday, July 27.—Yesterday the sultan agreed to comply with the demand made by the Russian government for the release of the Bersians recently arrested in Albania, together with the restoration of the arms taken, and for the recall of Djemal Bey, the mutessaiff of Pelishtina, the instigator of the arrests. Notwithstanding this prompt compliance the arrests were continued and today Russia repeated her demand in peremptory terms.

France is pressing for a settlement in accordance with the agreement regarding French-owned docks, the contract calling for their purchase by Turkey.

All the legations are making representations against interference by the porte with the decisions of the sanitary council. The palace officials receive these various protests with utmost serenity, replying that the sultan is the sovereign of Turkey.

RAINS IN KANSAS OVER A LARGE AREA

Atchison, Kas., July 28.—The drouth in northern Kansas, which has lasted without interruption since April 15, was broken last night and this morning. The Missouri Pacific railroad has received reports from all its stations, which extend 300 miles westward from the Missouri river and northward into Nebraska, and all except two or three report a downpour of from a fourth of an inch to two inches. The rain was a steady, drizzling one, and lasted in most places for three or four hours. The parched earth absorbed the moisture of the rain as fast as it fell. While the recent rains have covered central and southern Kansas they had not touched the northern counties up to within the last 24 hours.

NAILERS AND PACKERS WANT HIGHER WAGES

Minneapolis, Minn., July 28.—The 535 nailers and packers in the two flour mills of Minneapolis, have presented to their employers a demand for an increase of wages. They also demand a contract for five years. The employers have agreed to raise the wages but will enter into no contract. The men met today and decided upon a demand for only a one year contract. Tomorrow the revised demands will be presented. If an active strike is declared, the nailers and packers will have the support of thousands of other employes in the mills.

BANK IS UNFORTUNATE.

Chicago, July 28.—A sack of $1,000 silver dollars has mysteriously disappeared from the Commercial National bank. It had been left outside of the vault by mistake when the bank closed for the night. This is the second strange disappearance of a package of money belonging to this bank within a week. Detectives are still looking for a bundle of $20,000 in bills shipped by the bank with the Adams Express company to the National State bank at Burlington, Iowa, August 17 last. When the package was opened at Burlington it contained only clippings of paper.

FELL DEAD FROM HEAT.

Grand Rapids, Mich., July 28.—Mrs. Antonia Wanoosten, an aged Holland woman, fell dead from the heat on the street today while on her way from church. She was supposed to be in very poor circumstances but a cloth pouch was found tied about her waist under her skirts containing $1,145 in gold and bills.

THREE LOOK FALLS.

Lauterbrunnen, July 28.—Herr Wurster, the Austrian tenor, while descending the Faulhorn, fell over a precipice and lodged in a tree 50 feet down. He was rescued without being seriously hurt.

Geneva, July 28.—Frederick Morell, while picking edelweiss, fell 600 feet into a valley.

London, July 28.—According to a dispatch from Berne to the Daily Mail Arthur Capel, a London ship owner, while climbing last Friday to the Doldenhorn club house, fell over a rock 300 feet high.

EXPECTANT HOMESEEKERS

Drawing for Kiowa-Comanche Lands Will Begin Today.

ALL IS NOW IN READINESS

Scene Will Possess Spectacular Features Even Without the Usual "Run"--Crowds Good-Natured.

El Reno, O. T., July 28.—All is expectancy tonight among the thousands of homeseekers here over the grand land lottery that begins tomorrow morning. There are 13,000 claims to be distributed, and so each of the 165,865 persons who have registered during the past fifteen days have about one chance in thirteen of winning. It is a long shot, but every one apparently feels confident of being numbered among the lucky, and in consequence the best good nature prevails, and while the usual excitement of the "run" which has heretofore been known as a part of other land openings in this part of the country, the last act in the throwing open to settlement of the Kiowa-Comanche reservations will not be without life and animation. The drawing will take place in the center of the city and will be witnessed by thousands of people. It will be conducted on a large platform in the open, around which the sloping hillsides form a natural amphitheater. A commission was appointed last week by Secretary Hitchcock, and composed of W. A. Richards, assistant commissioner of the general land office, and who has had charge of the registration; D. P. Dyer of St. Louis, former United States district attorney, and Frank Dale, ex-chief justice of Oklahoma.

The situation here upon the eve of the eventful day is quiet, but one can see evidence of expectant anxiety. There are probably 8,000 strangers here now, and all incoming trains are loaded. Several state delegations have been organized and paraded the streets. The drawing will commence promptly at 9 o'clock tomorrow morning. The registration by land districts as approved by commissioners is, Lawton district 88,090 and El Reno district 79,000, making a total of 167,000 registrations. These figures were given out by a clerk in the government employ. It is thought that the largest crowd will be here tomorrow of any day since the opening of registration.

But 100 names will be drawn tomorrow for each of the two land districts. After the first day the drawing will proceed with greater rapidity and it is expected the last envelope will have been drawn by Thursday night next. The lucky ones will be permitted to file on a claim in the order that their numbers have been drawn from the wheel. All applicants for homesteads have been permitted to inspect the land beforehand to select a claim in case he should be lucky enough to draw a number.

Besides the three commissioners appointed to superintend the drawing and the men who will draw the envelopes from the wheel, space on the platform will be provided for newspaper representatives.

Commissioner Richards declined tonight to disclose the names of the men who will draw the numbers from the wheel, and said that their selection would not be made until just before the drawing begins.

HOMELESS INDIANS MAY TAKE MOST VALUABLE LAND

Oklahoma City, O. T., July 28.—Keo Tuck, a Sac Indian, has given notice at the land office of El Reno of his intention to file upon the quarter section of land adjoining the townsite of Lawton, which will be the principal town in the new country of the Kiowa and Comanche reservation. This is probably the most valuable tract out of the entire 15,000 to be opened.

The application is made under a section of the United States statutes passed in 1887, which gives to every homeless Indian the right to go to any part of the public domain and to make entry for any tract of land that is not in the possession of a homesteader. The section has never been repealed, and the right of the Indians who have no allotments or who were omitted from the tribal rolls is one that it is stated they can exercise at any time.

With Keo Tuck here were 60 members of the Sac and Fox tribes, who purpose to make filings, and attorneys throughout the country are searching for other Indians who have lost their tribal relations and who have not secured possession of homestead tracts. It is believed that there are 500 in the tribe [illegible] claims in the new country in addition to the ones who have registered by simply making their filings.

The plan is to select the lands they desire and then go into court and ask for a restraining order to prevent the registers and receivers from accepting filings on the tracts selected. This will, if successful, give the Indian time to perfect their title to the best quarter sections of land in the new country.

GENEROUS SUPPLIES OF MOISTURE IN THE WEST

Topeka, Kan., July 28. Copious rains have again fallen throughout Kansas today. All along the line of the Santa Fe far out to the western part of the state there were generous supplies of moisture. In Topeka nearly two inches of rain fell today, commencing early early this morning and continuing until afternoon. This makes over four inches in the past three days. Tomorrow the farmers of the state will begin replanting their vegetables and will plant immense quantities of turnips, Kaffir corn and sorghum for forage. The ground is in excellent condition for these products now, and plenty of rough feed for the coming winter is assured.

Kansas City, July 29.—Rain fell here almost continuously today, the downfall amounting to over an inch.

Dubuque, Iowa, July 28.—The drouth has been broken by a rainfall of 1.55 inches and reports from points in west and north Iowa show the storm was general.

Lincoln, Neb., July 28.—Reports from over the state show that the rains that visited Nebraska last night and this morning have left the corn in many localities in better condition than was at first thought. This, while not much of a help to the hay crop, will make from one-third to a full crop of corn. In some localities, however, there will be no corn.

Bedford, Ia., July 28.—The drouth in this section is broken. About three inches of rain fell this morning and it is still raining. This means an 80 per cent corn crop in this locality.

ENCOURAGING WEATHER ADVICES FROM CORN BELT

Washington, July 28. Today's weather advices from the corn belt were the most encouraging that have come to hand for the past 40 days, showing in the opinion of the forecasters that the great drouth has been broken by a general visitation of showers in many portions of that section and with a prospect of their continuation tomorrow. Coincident with the fall of rain has come reduced temperature. With few exceptions the temperatures reported were not abnormally high, no maximums of 100 degrees being reported. West of the Mississippi river they were in the neighborhood of 90. The forecasters, while not making any specific predictions as to the effect of the rain upon crops express the opinion that all those crops which have not been irreparably ruined will be benefited by the breaking of the drouth. The late crops naturally will be helped the most.

The reports show that during the past 24 hours showers were quite general in the corn belt and were heavy over much of the state of Iowa and over part of the corn belt not visited by rains, including western Nebraska, southern Missouri and Oklahoma. Monday there will be showers throughout the corn belt region except in its extreme western portion and southern Indiana and southern Ohio and they will continue generally on Tuesday in the Ohio and middle Mississippi valleys.

There also have been showers and thunder storms in the northern tier of states from New England to the Dakotas in northern New Mexico, northern Arizona and southern Utah and on the west gulf coast.

TAX LAW OF PUERTO RICO PROVIDES AMPLE MEANS

(Correspondence Associated Press.)

San Juan, P. R., July 21.—Events have already proved that the tax law drawn up by the legislators of this island will provide ample means for the island's requirements. This indicates that Puerto Rico is more prosperous than it was a couple of years ago. Steady improvement has been made since the day General Miles landed at Guanica, three years ago. The people are in better physical condition and work with more spirit. Plantations that went unworked for a long time are beginning to show signs of prosperity. There is more shipping in the harbor and the signs generally indicate better conditions.

Nevertheless scarcely an instance can be cited where any considerable amount of American capital has been invested in Puerto Rican enterprises. Numerous promoters and capitalists have visited the island, have declared that this or that investment would bring good returns and then have gone away never to be heard from again.

Manager Carpentier, of the French Railway company who sails for New York tomorrow has with him the recently granted franchise to be submitted to President McKinley for his signature. He will then proceed to Paris to confer with the directors of the company. The franchise, which has been hanging fire for two years, is considered the most reasonable yet granted by the council.

F. H. Dexter, an American attorney, sails on the same steamer with the signed franchise issued to a telephone company empowering them to connect the local systems of San Juan, Ponce and Mayaguez by a long distance line. Mr. Dexter has also authority from the city of San Juan to float a loan of $75,000 for the construction of a pier.

NEWS NOTES FROM DENVER

Chinese Authorities Stirred Up Over Restaurant Boycott.

WASHOUTS DELAYED TRAINS

Cloudburst at Wall Street Caused Much Damage Forest Fires Extinguished.

Denver Bureau
Colorado Springs Gazette.

Denver, July 28.—There is a Chinese restaurant in Denver named the "Silver Moon," that does not employ union help. The labor unions of the city sought to bring the proprietor to time by posting sentries in front of the place who would try and induce all Caucasians not to patronize it. Instead of accomplishing that they stirred up the Chinese authorities—and yesterday Mayor Wright received a telegram from the Chinese consul at San Francisco demanding that the restaurant be afforded protection as guaranteed by the United States treaty with that country. In the meantime the labor union has declared the boycott off pending a decision from the court as to just how far they can carry the matter.

Reports received at the state house indicate that the forest fires which have been raging for the past few weeks throughout the state were practically all extinguished by the recent rains. The fires while more numerous than they have been in recent years, were not so large and destructive.

The rains of yesterday and last night did considerable damage throughout the state. Two washouts occurred near Orin Junction on the Colorado & Southern and train No. 65 was caught between the two places. It will be compelled to remain there until the track can be repaired which will be several days. At Wall Street, Colo., a cloudburst occurred causing a rise of the creek in one hour. The Franklin mine was flooded and much damage resulted. As part of the Wood Mountain boarding house was washed [illegible] and other buildings belonging to Wood mountain were practically destroyed and a large quantity [illegible]

[illegible] mar, Colo., the rain fell steadily all the afternoon. The irrigation ditches in that part of the state are running full, thus guaranteeing a perfect sugar beet crop.

William Radcliffe, whose property was destroyed at the Grand Mesa, has gone to Washington, where he will present his claim for damages before the national government.

A burglar with more perseverance than luck operated on Capitol hill during the early hours of the morning. He first visited the residence of Mrs. C. R. Keith at 1447 Gaylord street and had succeeded in finding a pocketbook containing $5 when a Miss Kitchen discovered him and raised the alarm. He fled from that place and then entered the home of Dr. Healy, 1603 Gaylord street, where a Charles Rogers discovered him and shot twice at him, without effect. He then left Gaylord street and went to the home of Mrs. Caroline Wisbard, 1522 Race street, where he piled up a screen screened and effected an entrance into the kitchen. He was beginning to make himself at home when a Miss Larimer, who lives in the same house, discovered him. He left that place and was next heard of at the home of Francis Truth, the divine healer, 2041 East Colfax avenue. At this place he succeeded in getting $2 out of a purse which was lying on the table before Mr. Truth awoke and frightened him away. As the day was breaking, he decided he had better go home, which he did.

YOUNG PEOPLE'S ANNUAL.

Warsaw Depot, Ind., July 28.—The annual session of the Young People's Christian union of the Associated Reform Presbyterian churches of North America, closed at Winona lake tonight, with religious services. Rev. R. M. Russell, D. D., delivered the convention sermon. The final address, "A Mission's Mary Message," was given by J. Campbell White, Montclair, N. J., who has just returned from five years' labor in India and Egypt.

NEWS NOTES FROM PUEBLO

Western Slope to Be Represented at the State Fair.

KIRKLAND DID NOT COME

Movement of Cattle to the West on Account of Drouth May Now Cease.

Pueblo Bureau
Colorado Springs Gazette.

Pueblo, July 28.—E. D. Chaffield, of Gypsum, Colo., will reach the city tomorrow to confer with the directors of the State Fair association regarding exhibits from the western slope. Mr. Chaffield is a member of the state board of Agriculture and in a recent letter to the fair directors he stated that his section of the state will have an exhibit that will astonish the natives. Encouraging letters from numerous manufacturers who expect to make exhibits at the fair, are received daily.

The funeral of the late W. R. Stewart, who died suddenly at Cripple Creek, was held in Pueblo today under the auspices of the Eagles.

Mrs. Winnifred T. Biely and infant child, wife and child of J. W. Bally, will be buried Tuesday morning from the late home, 901 Pennsylvania avenue.

The funeral of Pierre S. Austin, who died in this city Friday, was held today.

Rev. R. L. Kirkland was expected to arrive in Pueblo today to explain to his former congregation, of the East Second Congregational church, some of the things that have been said about him, but he failed to materialize. His wife has received several letters dated at the general delivery in Denver, indicating that he is still in that city. He also said he was very sorry that his troubles had appeared in the newspapers and that whoever stated she had been guilty of cursing him, was mistaken. He asked her to write and let him know how she was getting along.

Mrs. Kirkland said today that she had been left alone and without money when Mr. Kirkland went to Denver and but for kind friends she and her little girl would have been in a bad way. She did not expect him to send for her as he had taken all his personal effects with him. She says she will profit by previous experiences with her husband, when they lived in St. Joe, and will not rejoin him.

The rains of last Saturday will stop the movement of cattle northward. For the first time in some weeks no cattle came in over the Missouri Pacific, to be pastured in Colorado. During the past two weeks cattle shipments from the drouth-stricken countries to the pastures of this state will aggregate 20,000 head. The Missouri Pacific alone handling 10,000 to 15,000.

Fire early this morning did $50 damage to the home of Ben Thrasher, 155 West D street.

ANDERSON JURY HAS NOT YET AGREED

Special to the Gazette.

Denver, July 28.—The Anderson jury, which took the case at 12 o'clock yesterday, is still out and at 7:30 this evening reported that so far they had failed to effect an agreement. The chances for a disagreement are very good. Should this happen, it will be the second mistrial in the case, and it will probably be ended.

What among human ills are more annoying than piles? The afflictions that prevent active exercise are bad enough, but one that makes even rest miserable is worse. Women are among its greatest martyrs. Tabler's Buckeye Pile Ointment will cure the most obstinate cases. Price, 50 cents, in bottles, tubes 75 cents. Holley-Arcularius Drug Co., 21 South Tejon street.

LONDON STOCK MARKET.

London, July 28.—The supply of money was rather scanty last week after the government disbursements on the consol loan. Consequently, although there was little demand, rates ruled firm. Stocks were dull. A quiet liquidation proceeded in many accounts, but it is believed this about concludes the liquidations. Therefore with prices at about the lowest figures a favorable reaction may reasonably be expected. At present, however, there is little local enthusiasm. Nor is there any continental support, the continental bourses having trouble of their own. Hope is pinned to Americans, and the hardening tendency in New York has been followed by somewhat more steadiness in London. A settlement of the steel strike would aid materially. Authentic figures as to the extent of the damage to crops in the United States are eagerly awaited for their effect upon granger roads.

Home rails were fairly steady, in spite of the distressing dividend reports. The bears sold short recklessly [illegible] but the real holders did not throw over to any great extent. Consequently the bears were forced to cover, which had the effect to uphold prices.

The revival in the mining market, now short lived. The [illegible] followed the publication of the captured Reitz-Steyn correspondence was rather specious, in view of the fact that the letters were dated quite a while back, while their contents were in contrast to a steady crop of small Boer successes recently, indicating anything but a general collapse of the war. The result was that Rands were down fractionally.

West Australians also suffered a fractional decline and jungle shares were spotted and showed fractional losses.

Continuous quotations on New York Stocks, Bonds, Cotton, Chicago Grain and Provisions. Wm. A. Otis & Co., 25 Giddings building.

Salt Lake and return; low rates via Rio Grande railroad.

$12, GLENWOOD AND RETURN, $12. Over Rio Grande R. R. July 29, 31, Aug. 11, 12, 17 and 21.

NEWS NOTES FROM VICTOR

W. L. Montgomery a Miner, Killed at Lost Stake Mine.

THE HOISTING CABLE BROKE

Accident at the Gold Coin Injured a Miner James Kelly Fell From a Box Car.

Victor Bureau
Colorado Springs Gazette.

Victor, July 28.—W. L. Montgomery, a miner employed at the Last Stake property on Battle mountain, was almost instantly killed at 9:30 o'clock this morning in the bottom of a 175 foot shaft of the property. Montgomery and another miner, John Benson, had just sent a bucket of rock up the shaft and were filling another bucket in the bottom. The cable of the ascending bucket broke when the bucket was about 75 feet above the two men. The loaded bucket, weighing several hundred pounds, fell and landed directly in the bucket being filled by the two men. The bucket and the cable attached struck Montgomery upon the head and shoulders, pushing him to the side of the shaft. His skull was fractured and he died before his fellow workman could get him to the surface. Assistant Coroner Boylan was called, and after investigation decided to hold an inquest over the remains tomorrow afternoon at 3 o'clock. It will be remembered that Frank Higgins was injured in this property by flying rocks a few days ago. A fuse on a shot was cut too short. This accident caused the coroner to decide to hold an inquest over the remains of Montgomery. The steel cable that broke this morning shows no marks of rection or bad material, and the cause of its breaking is a mystery. Montgomery was a Swede and his only known relatives are a brother living in Sweden. Deceased had been in the district for some time and formerly worked in Leadville and Aspen.

A miner named McDonald suffered painful injury in the Gold Coin mine today. McDonald was at work in the property and was caught in a small cave-in. He suffered injuries of the head, hips and back. He was removed to his home where his injuries were attended.

James Kelly, a grader, formerly employed by the C. S. & C. C. D. road, was badly injured this evening by falling from a Midland Terminal box car. Kelly was attempting to steal a ride, when he lost his hold on the car. The fall dislocated his left shoulder. He claims that two men, while he was in his disabled condition, severely beat him and robbed him of $10. He was taken to the Sisters hospital at Cripple Creek. In addition to his shoulder being dislocated, his head and body are badly bruised.

Contracts have been signed for the construction of a hotel at the southwest corner of Sixth street and Victor avenue. The work of removing the old building will begin tomorrow and the new building will be started as soon as possible. The hotel will be constructed by P. McKenna.

RAIN IN CHICAGO.

Chicago, July 28.—For half an hour in Chicago today the percentage of humidity was 93 with the thermometer registering 90 in the shade. Not a breath of air was stirring at the time and the atmosphere was suffocating. At 1 o'clock a heavy downpour of rain and a stiff breeze from the lake brought relief and in less than an hour the temperature had dropped 16 degrees. Over three-quarters of an inch of rain fell during the afternoon.

The.... Kodak Fiend

There wouldn't be so many kodak fiends if there were fewer Eastman kodaks. The trouble of operating the complicated mechanism of most cameras drives folks to drink instead of kodakery.

Your first picture with an Eastman can be as perfect as your experience work with inferior makes and the after years of your picture taking pleasure won't be marred by the thought of the trials in the early days when you were "learning the thing." There is no learning an Eastman—you press the button, the kodak does the rest.

Quarto-Centennial week we make this special offer—Eastmans at 20 per cent off.

HEFLEY-ARCULARIUS DRUG CO.
11 South Tejon St.

THE.... REMARKABLE DAVIS CHILDREN AT Broadmoor Casino
TOMORROW Afternoon and Evening.
Two boys and one little miss, possessed of rare talent, in their latest character songs, recitations and pretty dances, which have created a furore in Chicago and other large cities.
A Genuine Novelty and Unique Attraction
Bring the children to the afternoon performance, thus avoiding the evening crowds.

Quarto-Centennial at Boulder, August 2, 3 and 4.

Grand celebration of the Quarto-centennial of the admission of Colorado to statehood will be held at Boulder, August 1, 2 and 4, 1901. A program of great variety and excellence has been arranged for a fitting observance of Colorado's birthday. The celebration will be ushered in by a magnificent parade on the morning of Aug. 1. The First Regiment of the Colorado National Guards with Governor Orman and his resplendent staff will lead this.

GRAND PAGEANT

of military and civic bodies, with historical floats and vehicles typifying the progress of the Centennial state.

The great Chautauqua Auditorium will be thrown open free to the public and here will be heard Governor James B. Orman, United States Senators Teller and Patterson, Congressman John C. Bell, Lieutenant Governor Coates, ex-Governor Charles S. Thomas, Speaker Montgomery, Mrs. Helen L. Gronfell, Senator Barela and other distinguished Coloradoans.

A chorus of 500 women, under direction of Prof. Louis Ritchar, and a varied program of music, instrumental and vocal, by the best talent Colorado affords.

At night a grand free entertainment at the Chautauqua.

For the three days a half dozen brass bands have been engaged.

The First Regiment of Colorado National Guards will be in encampment at Boulder for the entire week, beginning July 31. Dress parades every evening.

August 2—Great state rock drilling contest: entries from nearly every mining camp in Colorado. For these contests

$1,000 IN PRIZES

have been offered. There will be double hand, single hand contests for men and the same for boys. These will occur in the great Chautauqua auditorium, and several contests will go on at the same time. A stamp mill, concentrators, and electric drills will all be in operation and illustrate mining and crushing of ores.

GREAT FIREMEN'S TOURNAMENT

will be held Saturday, Aug. 3. Straight away races, wet test, dry test, and hose races. For these events the citizens of Boulder have subscribed liberally.

The rates from points on the Colorado & Southern railway are going to be very low indeed.

IF YOU WANT TO GET TO CRIPPLE CREEK

Take the Colorado Midland railway. The line for safety, scenery and service. We run four trains each way every day. Ticket office, 13 North Tejon street.

A MOONLIGHT JAUNT VIA THE SHORT LINE.
TUESDAY, JULY 30.

An innovation in the way of pleasure trips will be inaugurated by the Short Line management on Tuesday evening, July 30, when a special train composed of four of the handsomest coaches and monster locomotive with powerful electric headlight will leave D. & R. G. station, Colorado Springs at 7:30 p. m. for a trip to the summit and return by moonlight. The party will be limited to 225 people, the seating capacity of the train, and under no circumstances will more than 225 tickets be sold. No passes nor free transportation of any kind will be honored on the train. Tickets for the trip, including souvenir coupon to be retained by purchaser, will be sold at rate of $1.00 for the round trip, and will be on sale only at ticket office D. & R. G. station west of Antlers park, commencing at 8:00 a. m. Monday, July 29. The party will arrive at the Springs returning about 10:30 p. m.

The view of the canons by moonlight, as the train circles around the top of the same, is indisputably grand, while the brilliant illumination of Colorado Springs, including Elks' fair and Midway, from the summit of the range, will be dazzling in its splendor.

COLORADO MIDLAND EXCURSIONS.

Cripple Creek and return July 15. Return limit July 22. Round trip $2.25.

REVISED PROGRAM FOR QUARTO-CENTENNIAL

Several new features have been added to the official program of the Quarto-centennial celebration, which was announced in these columns 10 days ago. Thousands of copies of the program have been printed for the executive committee and are now being sent out in the state. The program in full follows:

THURSDAY, AUGUST 1 PIONEER DAY.
Elks Great Street Fair.

10 a. m.—Meeting of Colorado Pioneers in the Antlers, led by early settlers. Band concerts.

2:30 p. m. Women's Congress meets in the Opera house. Prominent women of the state will talk of the development of the state during the past 25 years.

8 p. m. Addresses in the Opera house by former Governor Routt, Congressman Belford and others.

The Elks Street Fair, carnival of sports, band concerts, exhibitions and special exhibitions at the ostrich farm will be held daily and grand street illuminations in the evening.

FRIDAY, AUGUST 2 STATE DAY.
Elks Great Street Fair.

8 a. m. Vice President Roosevelt will arrive. He will be met and escorted by Governor Orman and staff, veterans, school children and citizens.

10 a. m.—Roosevelt's Address in North park on "The Growth of the West During the Last Quarter of a Century."

3:00 p. m.—Grand Historical Parade. The early epochs of Colorado history will be illustrated by 50 floats, grand flower parade, etc.

8 p. m. Reception by Congress of Women's Committee at Antlers hotel.

9 p. m.—Banquet to Editors at Antlers. Wolf Londoner of Denver will preside and speeches will be made by Colonel Roosevelt and prominent newspaper men from all parts of the country.

8 to 10 p. m. Grand Street Illumination.

SATURDAY, AUGUST 3 ROUGH RIDER AND INDIAN DAY.
Elks Great Street Fair.

10 a. m. Contests and Exhibitions of skill in front of grandstand by Roosevelt's Rough Riders and Indians. Cowboy soldiers will hold their annual reunion. Many Indians will be present. The Saber club will give an exhibition.

2:30 p. m. Shooting Contest at Broadmoor.
4:00 p. m. Polo Tournament at Country Club.
8:00 p. m. Grand Illumination and Pyrotechnics.

OTHER ATTRACTIONS.

Every day there will be band concerts morning, afternoon and evening. The Elks street fair will be open each afternoon and evening and a number of excursions have been arranged over the Santa Fe, Rio Grande and other railroads. There will be professional baseball every day and cricket, golf, tennis and polo tournaments. A trap shoot will also be held. Ostriches will be plucked at the ostrich farm.

ROCK DRILLING CONTEST.

On every day of the Festival there will be single and double handed rock drilling contests for prizes aggregating $1,500.

ntury Chest Will Be Closed Up Sunday

...ney afternoon at 4 o'clock ...ies incident to the filling of ...tieth Century chest that is to ...mong the archives of Colorado ...r a hundred years before it ...will be held. The chest is ...y done at present and it is ex... that the last work on it will be ...morrow. When it is completed ...e placed on exhibition in the ...of Robinson's drug store to ...until it is wanted.

...a of handing a collection of ...s open as will be placed in this ...esterday has been widely com... ...upon in papers throughout the ...t is universally regarded as ...ight idea and a great many ...are now considering the ...doing the same thing. Should ...conditions change or other ...occur to blot the cities of the west but of existence this area would come as near as anything to weathering the storm and the documents within its walls would prove exceedingly interesting reading for the people of a hundred years hence. Should things go on just as calmly and peacefully as they are today, for a hundred years, then the reading matter within the box would be none the less interesting, and the people of Colorado Springs of that date will have plenty of information on the life and customs of the people of today. Other towns think that they too have a few things that they would like to have their future generations know about and other century chests are likely to be heard of soon.

The box will be placed in Coburn library after it is finally sealed. It is probably that a place will be cut in the wall of the library, only the front of the box showing.

xpert Examining School Board Books

...pert examination fever has ...the school board. ...members are not expecting to ...shortage in their accounts or ...y like that but the books have ...expected since 1895 and it was ...shortly time ago to employ a ...go over the books and expert ...date.

...Auditor Arthur of the city ...was in Colorado Springs a ...ago for the purpose of making ...inary examination to ascertain ...it would take him to make a full report on the books covering the five years since which the work was done. He made his preliminary canvass and stated that there was about 15 days' work in the business involved. The board decided to employ him and he has gone to work.

He will submit his report to the members in about two weeks.

The books involved are the books of the board for this district and the books of the county treasurer's office, so far as they contain records of the financial transactions by the school district.

ayor of Pueblo Says Little But Can Saw

...Robinson has been challenged ...sawing contest. ...the principal events at the ...of the World's log rolling at ...n Aug. 5 will be a sawing con... Mayor West of Pueblo has ...enge to Dr. Robinson for a ...saw and wood. A big crowd ...Pueblo from this city. The ...ge will run a special train.

West's challenge to Mayor ...Robinson.

Pueblo, Colo., July 25, 1901.

...n R. Robinson,

Mayor Colorado Springs.

...ed Sir—I understand you are ...slavic chopper. But whether ...or not, I hereby challenge you to a sawing contest, game to take place at the Mineral Palace in Pueblo, on the afternoon of Thursday, Aug. 8, at which time the log-rolling of the Tenth district, Pacific jurisdiction, Woodmen of the World, will be in operation. You can select your sawing partner, and I will select mine. You can furnish the saw or select one here. Contest to be decided by the committee having the sawing contests in charge, or you can choose one man, I will do the same, and the two can choose the third one—decision to stand without appeal. Winner to take the prize that may be given. An early reply will be appreciated.

Very respectfully,

George F. West,

Mayor of Pueblo.

WOMAN THROWN FROM HER CARRIAGE

Mrs. John Hill was thrown from her carriage at Pike's Peak avenue and Tejon street at 5:30 o'clock yesterday afternoon as the result of a collision. Her carriage was struck by a team belonging to the Russel Gates Mercantile company and was upset. Mrs. Hill was thrown out and sustained severe injuries to her head. She was taken to her home in the city ambulance.

SECRET GOES BACK WITH SHERIFF ELLIOTT

A Carleton Secret was taken to Missouri last evening by Sheriff Elliott of Montezuma county. Secret is wanted in California, Mo., on a charge of forgery and was arrested several days ago by the local police department. Sheriff Elliott would have left the city with the man earlier had his transportation not been delayed.

GOSPEL SERVICE—The Rev. C. J. Hall of Denver will speak at 4 o'clock this afternoon in North park and in the evening he will make an address at the First Christian church.

MISS LYONS TO SPEAK—Miss Mary Lyons, a missionary from Port Said, will address the congregation at the First Baptist church at 7 o'clock this evening.

A FATAL FIRE IN LOUISVILLE, KENTUCKY

Louisville, Ky., July 27.—In a fire which early this morning destroyed the property of the Bagley-Graham Photographic Supply company, Max Belovitch, a cigar maker, and Policeman James Pruden were burned to death in an effort to rescue women and children who occupied rooms above the store.

Shortly before midnight a terrific explosion awakened everybody in the neighborhood and among the first to reach the street in front of the building on Jefferson street near Fourth and adjoining the offices of the Associated Press was Max Belovitch, living across the street. Hardly had the first explosion died away, before he had dashed up the side stairs in answer to a woman's screams. About the time he reached the second floor he must have fallen for when picked up only a few moments afterward his right side was burned to a crisp. Police Officer James Pruden was found on the third floor suffocated and seven firemen were taken from the ruins. Some of them will probably die.

Among the serious injured firemen are: Captain Tim Scahan of company No. 2, badly hurt; Burnett Harding, laddermann, may die; Harry Brown, probably fatally; Harry Swain, may die; Charles Keller, crushed, may die.

At 1 o'clock it is rumored that six or seven persons lost their lives in the building, but this cannot be verified at this hour. Several are reported missing and may be in the ruins. The fire spread with such rapidity that even the fire fighters were nonplussed. When the first crash came there was nothing but smoke, but in a moment afterward the place was a veritable furnace from floor to roof. The loss is about $50,000.

THE BERLIN BOERSE IS PESSIMISTIC

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

Berlin, July 27.—The boerse today took a pessimistic view of the tariff bill and a general fall in the prices of iron and coal shares resulted. The Boersen Zeitung, in its report, says:

"The view has prevailed on all sides that the new bill would be full of danger for Germany's industry and trade."

The Lokal Anzeiger says:

"The boerse no longer expects the commercial treaties will be concluded and anticipates that the export trade will be considerably hindered. This caused the pessimistic tone on today's boerse, together with the fact that duties on the necessities of life must cause higher prices, precisely at the time when wage reductions are the order of the day."

The Lokal Anzeiger further learns that the members of the bundesrath regard it certain that the bill will not pass that body in its present form and they expect considerable changes will be made therein, especially as Emperor William is desirous of new commercial treaties.

MATTER WITH THE MILLIONAIRES

Another Chapter in the Story of Low Percentages of Home Team.

HERNON IN NEW ROLE

Management Is Retaining One or Two Men Who Are Neither Ball Players Nor Valuable Citizens—Street Brawl Last Night Stopped by the Police.

Just how much of such a city as Colorado Springs a man owns because he manages to retain membership in a professional baseball team was the subject of considerable discussion, followed by a practical demonstration on Tejon street last night.

Hernon, Tim's friend, whose batting average in the day time puts him at the bottom of the list of members of the Millionaires, and puts the Millionaires pretty near the bottom of the list of teams belonging to the Western league, proved that his batting average at night is equal to that of anybody in town. He is a star performer when the game is creating a German rough-house on the street.

He is said to have had some help from another member of the team who will be in elegant shape to play the game in Cripple Creek today, while a third member of the Millionaires, who heard the disturbance a block distant, came up and succeeded in restoring order with the aid of the city police. Here in front of the drug store of Jones & Wellington when he became possessed of the idea that there was no one else in the company of a dozen or 15 hangers-on who were there who had a right to be out after the curfew rings. Accordingly he started in to clear the street. McNeeley, who is supposed to pitch the game today in Cripple Creek, was with him and was inclined to help him demonstrate his proposition. The people who were the object of Hernon's bull dozing attack were not accustomed to such proceedings, having resided in Colorado Springs before the professional ball team became a part of the city, and they resented him. There were two or three noses badly bruised and several lamps were dimmed before the police who arrived on the scene, and Gaston, another of the ball players who heard of the disturbance and ran to the scene from the Elk hotel, succeeded in quelling the riot.

Hernon was placed under arrest but a pathetic appeal on the part of the professional friends who didn't want to play the game today, with the reflection that one of their number was languishing in durance vile, saved him and he will probably do his part today to help along the fielding average of the Millionaires.

TO BUILD WARSHIPS ON GREAT LAKES

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

Chicago, July 27.—The Chronicle says:

United States but foreign countries may be built on the Great Lakes in the near future. To accomplish this the shipbuilders located on the lakes, supported by manufacturers and concerns that cater to the shipbuilding business, are combining in a movement to demand the abrogation of the treaty with Great Britain which excludes warships from the lakes. This treaty has been a subject for consideration by statesmen for many years.

At the coming session of congress the members of the representatives whose constituents are on or near the lakes will, it is said, demand that something be done.

Congressman Boutell, who will look after the campaign at the coming session of congress, in speaking about the matter, said:

"The existence of the treaty is manifestly unfair to the people of the lakes cities. In 1898 congress appropriated $126,000 to begin the construction of a vessel on which the naval militia of the lakes might be trained. It was the intention of the navy department to equip this vessel with all the modern guns and equipment, but the appropriation was rescinded when it was found that the treaty stood in the way. The shipyards situated on the shores of the Great Lakes and these yards which employ thousands of men are not allowed to bid on the work for foreign navies because of this treaty. Secretary Foster investigated thoroughly in 1892 and made an exhaustive report in which he advocated the absolute withdrawal of the treaty and the opening of the lakes to any vessel that floated. It was referred to a joint high commission. It has been there since, unconsidered and untouched, so far as the country knows. It is time something was being done to remedy the situation."

CRIMINALS BROUGHT BACK FROM NOME

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

Port Townsend, Wash., July 27.—The United States transport Warren arrived at quarantine today, having in tow the nited States transport Seward, the machinery of which gave out after arriving at St. Michael and discharging cargo and starting for Cape Nome. While in a disabled condition she was picked up in Bering sea and towed to Nome, where it was ascertained that her furnaces and boilers had practically given out.

Just before sailing on the Alaskan trip the Seward's machinery had been repaired at Seattle at considerable expense. On board the Seward was Mrs. Randall, wife of General Randall, in command of the military district of the north. Mrs. Randall is now on her way east.

On board of the Warren were 12 of the hardest criminals ever sent from the north. They were convicted of various crimes at Nome and their sentences ranged from 10 to 20 years, which they will serve on McNeils island.

Captain Barnes of the Warren reports the steamship Buckingham at St. Michael discharging coal and says the report of her having been damaged by ice is incorrect. He also reports everything quiet at Nome with the exception of the feverish excitement that prevails and hundreds of men with provisions packed are roaming the streets ready to stampede to the new diggings on the report of any new discovery being made. A number of stampedes have occurred, but when the Warren sailed no new reports of new findings had reached Nome. The Warren with the Seward in tow made the run from Nome in a few hours over 10 days.

HOW ARE THESE FOR LOW RATES?

Via Great Rock Island route: $32.00 to New York; $22.50 to Buffalo; $47.50 to Boston and just as cheap to all far eastern points. Full particulars at city ticket office, 12 Pike's Peak avenue.

W. W. Wood, Gen. Pass. Agent.

D. V. DONALDSON.

New president Colorado Springs Mining Stock association, who goes east in a day or two to spend a month arranging better advertising for the local stock market.

SPEECH WHICH CAUSED SENSATION IN COMMONS

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

New York, July 27.—Following the information cabled that leaders of an important step toward enforcing peace between England and the Boers had pervaded the house of commons for several days came a speech by Gibson Bowles, Conservative, that caused a profound sensation, says the London correspondent of the World.

Mr. Bowles gave the government solemn warning that unless peace were made in South Africa before spring, extremely grave complications would confront England in Europe.

The speaker declared further that he knew that negotiations had been proceeding within the last six months and were still active with the object of inducing or enforcing peace.

In view of these conditions he said, England could not persist in outraging the feelings of the great powers without paying a heavy penalty.

A minister replying to the statements made by Mr. Bowles was looked for but none came.

Upon inquiry in the lobby of the author of that warning, a World correspondent learned that Mr. Bowles, who, though a Conservative, is somewhat disaffected and more or less antagonistic to the ministry, referred in his speech to a movement set on foot by Queen Wilhelmina, by which he had succeeded in interesting the emperor of Germany and the czar of Russia so far that their negotiations were fast approaching a point where England could no longer safely ignore them.

Edmund Robertson, member of the recent Liberal parliament, corroborated what Mr. Bowles had said, and declared that he spoke from his knowledge of the situation.

These public utterances, uncontradicted by the government, taken in conjunction with President Krueger's return to The Hague and with the repeated journeys of Mr. Leyds, diplomatic agent of the South African republics in Europe, between Berlin, Brussels, The Hague and Paris, recently point to important developments at an early date.

As previously cabled, it is said that the kaiser is to assume the role of peacemaker, having been empowered by Krueger to act for the Boers; that the kaiser is willing to take the initiative in order to popularize his relations with the German people who disapprove his friendship for Great Britain.

BOB WALTHOUR WON FIFTY MILE RACE

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

New York, July 27.—After riding 37 miles in a four-cornered, 50-mile, motor-paced race at Manhattan Beach this afternoon Harry Elkes abandoned the contest and went to his dressing room thoroughly beaten. Bob Walthour of Atlanta won the race in an hour, 22 minutes and 29 2-5 seconds, finishing five and three-quarters laps almost two miles ahead of Jimmy Moran of Chelsea, Mass., who was three miles in front of Arthur Ross of Newark, N. J., who finished third. In the first mile Elkes had the lead, with Moran, Walthour and Ross in the order named.

The opening mile was run at such a fast clip that a new world's record of 1:33 3-5 was established. For the first time in a race of this kind Elkes was passed and the one who did it was Moran. Moran finished the second mile with Elkes about 10 yards behind in 3 minutes 6 3-5 seconds, which is another world's record for the distance. Elkes regained the lead in the sixth with Moran second, and they rode in this order until the 11th mile, at the finish of which Walthour took second place with Moran third and Ross last, several laps behind.

During the riding of the 17th mile Walthour shot into the lead, passing Elkes at a terrific burst of speed. Elkes lost his pace a moment later and fell back. In the 20th mile Walthour again passed Elkes, which made him one lap to the good. At 31 miles Walthour had two laps on the Glens Falls flier, and in the next mile gained a third lap, which gave him a lead of one mile on Elkes. Moran in the meantime had lost a couple of laps, but at this point he began to gain on Elkes and at 35 miles the Chelsea man took second place while Elkes was in trouble.

At the finish of the 37th mile Elkes quit, being then seven laps behind Walthour and two behind Moran, with Ross struggling along sometimes without pace, badly in the rear. When they had been riding one hour Walthour had ridden 37 miles 2½ laps, equaling Elkes' record made on the same track some time ago. Walthour did not let up after Elkes dropped out and finished the 40th mile in 63 minutes 44 4-5 seconds, beating Elkes' time of 65:50 [illegible] a week ago. With 47 miles traversed Walthour met with an accident which caused him to lose about a half lap.

Major Taylor defeated Frank Kramer in the final heat of the half mile circuit championship. Lou Downing, of Los Angeles, won the one mile amateur handicap. Time 2:01 1-5.

KIPLING'S TRACT ON THE SCIENCE OF REBELLION

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

New York, July 27.—Rudyard Kipling has written for the Imperial South African association what he calls a "tract for the times on the science of rebellion," according to a dispatch to the Tribune from London. The tract is directed mainly against the bond, which is described as seeking to attack England through her pocket and keep Cape Colony on the see-saw, filling it with rumor and unrest, sympathizing here and suggesting there just enough to force the British government to grant amnesty to the rebels and recruit the Dutch party for further constitutional warfare. The logic of the argument is that it is assumed in Cape Town that the Liberal opposition will save the bond and South Africa for the bond if only the commandos make the war expensive and that the Boer marauders, north and south are working for a common object, namely, the manufacture of pro-Boers in England by doubling the income tax and by throwing a delicate gloom over every aspect of the situation. The Canadian is represented by Kipling as making these acrid remarks: "We need not suspend the constitution for Keeps, but we ought to have a family council. Canada, Australia and England, I mean and hand the whole show up for two years until our erring sister has got over her hysterics. A constitution for a country that don't know enough to cut its own hair, where I've had to do it for a year. In the open for fear the pious voter would blow up the railway bridges behind me, no sir."

THE CHINESE PROTOCOL WILL SOON BE SIGNED

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

Washington, July 27. Confirmation of the amplest kind of the encouraging news that has come to the press from Peking relative to the settlement of the financial problems that have engrossed the attention of the ministers there for many weary months has just come to hand from Special Commissioner Rockhill. Moreover, he adds to the general items already reported the news that the ministers will be ready to sign a protocol within two weeks that will result in the speedy withdrawal from China of all foreign troops except the legation guards and those who will occupy the certain strategic points to be held under the treaty to safeguard the road between Peking and the sea.

The advice is in substance as follows:

The Russian government has signified its intention of not further pressing the question at present of the eventual increase of the import customs duties, beyond five per cent (the present figure). It is agreed that in case the revenues of China are not sufficient for the payment of interest and principal, the powers are to examine the revenues and determine what changes are necessary, in order to supply the deficiency. The imperial maritime customs are to be included in this arrangement. The British minister is satisfied with this arrangement and the whole question of financial measures is therefore settled. The 450,000,000 taels constituting the indemnity are to be converted into gold at the equivalent of the tael value on the first of last April. In case the import duties are subsequently increased the free list will have to be abolished except for cereals but it is understood that compensation will in that case be asked for, probably the financial participation in improving the water approaches of Shang-hai and Tien-tsin. All the other principal points of the negotiations are now settled and it is expected that the results will be summarized in the final protocol within two weeks and that all the powers will become signatories.

In connection with the indemnity payments a question has arisen whether the United States government will take its share of the bonds to be issued by China in American gold or in pounds sterling. The disposition of this government is to take the money in the form that will be the least burdensome to the Chinese government, and in the interest of uniformity it is probable that the payments will be made in pounds sterling.

COUNT LEO TOLSTOI CONTINUES TO IMPROVE

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

St. Petersburg, July 27. Count Leo Tolstoy, who has been dangerously ill, continues to improve, but his physicians are unable clearly to diagnose his trouble.

"You good folks," Count Tolstoy said to the doctors, "know all that medical science teaches, but unfortunately, that science itself knows nothing at all."

A few days ago Count Tolstoy said to a friend:

"The carriage is already at the door and I must go."

Then, later, after he had slightly improved, he said:

"Oh, I am allowed to wait awhile."

The chief cause for alarm concerning Count Tolstoy lies in his extreme weakness. His body is emaciated and his skin is sallow, his eyes alone retain their brilliancy, while his mind is perfectly clear.

PRESIDENT OF CHILE.

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

New York, July 27.—A dispatch to the Herald from Valparaiso says:

The electoral college has just cast its vote for Jerman Riesco for the next president of the republic. All the members of the cabinet have tendered their resignation in order to leave the vice president free to nominate a new cabinet, in accordance with the views of the parliamentary majority. It is believed, however, that the present cabinet will remain in office until September 18, when Senor Riesco will assume the presidency.

EDWARD J. KELLEY.

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

New York, July 27.—Edward J. Kelley, commodore of the New Rochelle Yacht club who was to have entertained Admiral Schley on his yacht this afternoon, died suddenly at his cottage on Premium point, New Rochelle, today, of hemorrhage of the lungs.

Commodore Kelley was about 45 years old and was a son of the late Eugene Kelley who was a well-known banker of New York.

He leaves a widow and two children. Mr. Kelley was one of the best known yachtsmen in this part of the country.

SHOES

For Toddler's Toes

there is a great variety of cunning little coverings here.

Dainty Little Shoes

In a great variety of materials, cut and finished in a way to give the greatest comfort to growing feet.

STEEL CASTING PLANTS TO BE CONSOLIDATED

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

Chicago, July 27.—Another steel combination embracing the principal plants engaged in making steel castings is to be formed. The nucleus of the consolidation is the American Steel Casting company of Chester, Pa. The list of companies said to be included in the scheme are the following:

American Steel Casting Co., Chester, Pa.; American Steel Foundry Co., Sickel, Harrison & Howard and Scullin and Gallagher Co., all of St. Louis; Sargent Co., Chicago; Franklin Steel Casting Co., Franklin, Pa.; Seaboard Casting Co., Chester, Pa., and possibly one or two others.

The capital is to be upwards of $15,000,000, with the prospect that the amount will be considerably increased later on. The board of directors as proposed includes Daniel Eagan, president of the American Steel Co., Philadelphia; Rolla Wells, mayor of St. Louis and president of the Franklin Steel Casting Co., Franklin, Pa., and W. D. Sargeant, president of the Sargeant Co., Chicago. It is probable that Daniel Eagan will be president with headquarters at New York or Philadelphia. It was thought for a time the consolidation might fail, but it was found that each concern entering the combination was able to subscribe its own quota of stock, and it is on this basis that the scheme is now being carried out.

The companies in the combination make steel castings for railroads and it is said there will be a great saving to consumers in the number of patterns used. At the present time there are about 100 different styles of car couplers complying with the requirements of the Master Car Builders association and the interstate commerce commission. Most of these patents, while quite similar in many points, are owned by as many private owners who have ordered the same made by the steel casting companies as orders were received from railroads. A movement will be made to "standardize" by adopting three or four standard patterns and thus avoid the necessity of forcing a railroad to carry a stock of parts for so many styles of couplers. The steel casting companies own some of the patents and will refuse to make couplers for those outside the combination. What is true of couplers is true also of brake shoes, driving wheel centers for locomotives and other locomotive parts.

BEER BOTTLERS INVOLVED IN FIGHT AGAINST UNION

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

San Francisco, July 27.—Two hundred beer bottlers went on strike today as a result of the demand of the brewers that the men should either leave their union or be discharged.

The only important development in the teamsters strike was the arrival of about 100 men from the interior of the state to take the places of the strikers. A detachment of 80 came from Bakersfield. Of this number 62 went to work. They are to receive $4 a day and $1 bonus.

There were more teams at work than at any time since the trouble began and a large amount of freight was moved. The policy of guarding each large dray with two policemen was changed this morning and in many instances only one blue coat was allotted to a wagon. This change was made necessary by the increased number of non-union teamsters that were at work and the impossibility of giving two officers for each team. But very little disorder occurred.

Both sides to the controversy express confidence in ultimate success.

SUCCESSFUL LAUNCHING OF NEW BATTLESHIP MAINE

(By Associated Press Exclusively to the Gazette in Colorado Springs.)

Philadelphia, July 27.—The battleship Maine, designed to be bigger, stronger and faster than her namesake, whose shapeless mass still lies in the harbor of Havana, was successfully launched from the yards of the William Cramp Ship and Engine Building company today. One of the largest crowds that has ever seen a warship leave the ways was on hand and patriotism ran wild as the ship left her cradle.

Kensington, wherein the ship located, took a holiday and attended the launch. Thousands of persons from other parts of the city were on hand and as the yard was thrown open to the public, every vantage point in the confines of the place swarmed with humanity. The weather was beautiful.

The state of Maine was officially represented by Governor Hill and members of his staff. From Washington came Rear Admirals Bradford, Melville and Walker, Lieutenant Commander Bailey, Captain Leary, former governor of Guam, and a number of bureau chiefs of the navy department.

President McKinley, Secretary of the Navy Long, Admiral Dewey, Captain Sigsbee and other naval dignitaries who received invitations were unable to attend.

The ceremony of christening the ship was performed by Miss Mary Preble Anderson of Portland, Me., a descendant of the Preble family that has added fame to the naval honors of the country. All was in readiness as Miss Anderson stepped upon the stand erected at the bow of the hull. As the last timber that held the ship was sawed in twain and the vessel began to move Miss Anderson struck the bow of the Maine a blow with the bottle of champagne and formally christened her. As the vessel slid off the ways a great shout went up and every craft in the vicinity began the tooting of whistles.

The Maine is 76 per cent finished. Her keel was laid in April, 1899, and the ship will be ready for transfer to the government in 18 months or two years.

THE ELKS FAIR.

WHILE the regular exercises of the Quarto-centennial celebration do not begin until Thursday, the whole week will be more or less of a festival in Colorado Springs. The beginning will be today, and the Elks fair will continue throughout the week as one of the main centers of interest.

This is the first experience that Colorado Springs has had with this sort of an entertainment, but it has been proved to be immensely popular in other cities and there is no doubt that it will be here. The character of the organization that is directing the fair and its record of unfailing success in everything that it has undertaken leaves no doubt in the general mind that this fair will compare favorably with those given in much larger cities. Another thing that indicates that the fair will be very successful is the fact that the people of the city and the business men, almost without an exception, have taken a hearty interest in it and have contributed towards making it what it is intended to be, a real representative of the city and its interests. It should be remembered that the spectacular features that are grouped together under the name of the Midway are by no means all of the fair. The showing made in the booths is of far more importance and the street fair would be well worth going to see, not once, but many times, even if the wild animals and the lion tamer, George and all the rest of them were not here.

It would be a good plan if the people of Colorado Springs would make it a point to visit the fair early in the week. It is certain that anyone who goes once will desire to return, and no one can go often who does not go early. Besides that, the Colorado Springs resident who desires to see what there is to be seen will find it much easier to do this in the earlier part of the week than at the time when the crowds from outside are in the city. Besides that, it is to be hoped that in the final three days of the week all of our own people will be busy either in contributing in some active way towards the success of the Quarto-centennial celebration or else in assisting to provide for the comfort and entertainment of our visitors.

The best way, therefore, is to go to the Elks fair today and then go again tomorrow, after that it would require a barb wire fence higher than your head to keep you away from South Cascade avenue.

THE CENTURY CHEST.

AS WAS predicted by the Gazette, the plan of saving up a box for the benefit of the next century has already attracted much more than local notice. Several of the eastern papers have already commented upon it, and the Springfield Republican thus refers to it:

COLORADO SPRINGS PREPARING FOR THE YEAR 2001.

When the young Bostonian of the eighteen-seventies awoke in the Boston of the year 2000, as recorded in Mr. Bellamy's romance, he presently found himself of great importance as an abstract and brief chronicle of his time, vastly superior to the newspapers, the remaining records and the family papers, because he could make plain just those circumstances or conditions whose details the writers of that day had, in their familiarity with them, never thought of dwelling upon. The citizens of Colorado Springs at the end of the year 2000, missing of a Julian of their own, will nevertheless be furnished with a remarkably interesting substitute through the carrying out of a fortunate idea which occurred to a citizen or two of the present day. Louis R. Ehrich, whose name is widely known beyond the borders of his state, was much concerned with these successors who should see the 21st century dawn, and thought to devise a means of putting the two ends of the hundred years in touch, as it were, in some more intimate manner than the natural survival of such things as are written and printed, with sole reference to the self interests of the present and its professors. Alumni of Colorado college worked out a plan to counteract even more materialistic influences in the age sometimes spoken of as lacking in a bit of idealism, perhaps touched somewhat by the very purposes of Mr. Bellamy in his last days in Colorado.

At all events, the suggestion, which is being carried into effect, is that a series of letters be written, addressed to the future Coloradoans of the Springs. All the matters of present interest are to be treated with a direct sense of what they will particularly desire to know, and accordingly the principal citizens have each been assigned special topics allotted—the newspapers and mines, real estate, the churches, colleges and schools, art, music, libraries, the law, humane efforts, charities, national political questions as well as local and, of course, "Colorado Springs from the woman's standpoint," woman suffrage, labor organizations, secret societies, prices of household articles, phonographic rolls of local singers and college yells, and an account of the slang of our time. Then photographs of people, churches, street cars, automobiles, buses, etc., will be inclosed. But most interesting of all, if they are done in the spirit of the thing, will be the personal letters of citizens to descendants who may be surviving at the opening of 2001. Whether "Paston letters" can be written on purpose is to be doubted, but at all events the notion is taking. These documents will all be inclosed in a wrought-iron box, lined with zinc, and a copper-plate placed upon it will bear the inscription: "To the Citizens of Colorado Springs of the Twenty-first Century. To be opened after midnight, December 31, A. D. 2000." The Colorado Springs papers of the next few weeks after that event will doubtless be busy reprinting these papers, and the Republican will, without question, have a special dispatch by aerial telegraph describing the ceremonial opening.

From comment to imitation is only a step, and we look to see the century chest imitated in many American communities. To Colorado Springs, however, belongs the credit of originating the idea and of preparing the first message of this kind to our descendants and successors.

THE PHILIPPINE FRIARS ONCE MORE.

A VERY interesting special dispatch appears in the New York Evening Post relating to a subject of which Gazette readers have already heard at several different times. In spite of the press dispatches from Manila announcing that Roman Catholic authorities there say they have no intention of withdrawing the friars from the Philippine islands, the assertion is still made here in high quarters that the whole ecclesiastical system prevailing under Spain for so many years will undergo revision, with a view to eliminating all the elements of friction, present or traditional, as far as practicable. Whether they know it or not, the Roman Catholic authorities at Manila are not to have the final word on this question. They have been friendly to the friars from the beginning; and on this account, when the popular revolt against the continuance of the old regime threatened to become serious, an American prelate, Archbishop Chapelle, was instructed by the pope to go to Manila and investigate the situation. The archbishop recently visited Rome, where, in company with Cardinal Gibbons, he gave the pope all the information he had procured. After a full consultation, it was announced by authority that a decision had been reached which would be satisfactory to the church and to the United States government. This is understood here to mean that the friars will be taken out of the field in some way, as a necessary condition precedent to the pacification of the islands.

The church authorities in the Philippines may not relish the pope's order when it is made public, but eventually they will be compelled to submit to it, for the pope is to have the strong arm of this government to assist him in compelling respect for his decision.

From the first it has been evident to those who were familiar with the conditions in the islands as they existed before the downfall of Spanish rule that the continuance of the friars in their civil powers and landed possessions was inconsistent with the advanced civilization which it was the purpose of the Americans to introduce into the Philippines. On previous occasions the Gazette has given facts and reasons in detail for this statement and has pointed out that the accusation brought against the friars need not be taken as any charge against American Catholics or the Catholic church.

The most interesting part of the dispatch which we have quoted above is that the head of the church himself, after due investigation by a trustworthy and competent agent, is resolved upon the reform of the abuses of which complaint has been made, and that the church in the islands will be reorganized to conform to the new conditions now existing there. This decision of the pope will remove one of the most difficult questions affecting the future of the islands and will make the task of the Americans there very much easier. At the same time it will, whatever the short-sighted prelates in Manila may think, be in reality very greatly to the interests of the Catholic church in the Philippines.

The almost unanimous sentiment in regard to the Schley investigation is that of gladness that it is at last to be settled by a competent authority. We note, some intimations that Admiral Schley's partisans will not be satisfied if the result is against them, but the general public is willing to abide by the result, and the Schley people will find the task a difficult one to convince any that the court is prejudiced or incompetent.

Do not forget the Gazette prize offers for the best decorated houses and business blocks in Colorado Springs, Colorado City and Manitou.

FROM THE STATE PRESS

Items of Interest for Gazette Readers From All Parts of the State.

The superiority of Colorado's school system is exemplified by the large number of teachers who have been engaged to go to the Philippines. Colorado colleges send four, State Normal five, five go on recommendation of Mrs. Helen L. Grenfell, state superintendent, and three on the recommendation of the superintendent at Manila. Other institutions in Colorado have not yet made their appointments.—(Silverton Miner.

The Quarto-centennial celebration at Colorado Springs, August 1 to 2 and 3, promises to be one of the most interesting affairs ever given in the state. There will be three days of the celebration, and it goes without saying that the Quarto-centennial will be one of the greatest successes of Colorado history. The state editors will be there in a body. A banquet is to be given at the Antlers in their honor. It is safe to say that all who can do so should attend the Quarto-centennial celebration. Colorado Springs never does things by halves.—(Del. Norte Prospector.

Colorado is going to have a double celebration of her Quarto-centennial. Boulder and Colorado Springs have been showing a lively rivalry in their preparations. It is well that both cities are going to observe the day. It will give that many more people a chance to be present. Both cities have prepared excellent and varied programs and each place is noted for its hospitality. The low rates on the railroads make it possible for many to attend and thousands will, no doubt, avail themselves of the chance to get out and have a patriotic good time.—(Walsenburg Yucca.

To the Lamar people who go to Colorado Springs next Sunday and during the Quarto-centennial celebration, the last of next week, The Sentinel offers this advice: Instead of going up Pikes Peak on the Cog road take a trip over the new Short Line to Cripple Creek. No railroad trip of equal length in the state affords a finer series of views or more thrills to the mile. The road is 45 miles long and rises over 4,000 feet in covering the distance between the Springs and the great gold district. The engineering is a marvel.—(Lamar Sparks.

A large amount of development work is being done on Signal mountain these days, and some one is liable to strike a body of good ore in one or another time. If such an event authorized men would soon be employed in that portion of the district and Victor and Lawrence would be expected to furnish them homes. At the present time there are but few vacant houses in the city and no good ones are empty, and a mining boom south of the city would create a building boom in the city.—(Victor Record.

The discovery of the mines of Cripple Creek, the ideal summer resort of Colorado, which the Star started and has been agitating for more than two years, is fast assuming shape. The business men and the men of money are taking up the agitation and it is our prediction that it will not be long before [illegible] along this line. There is no disputing the fact that Cripple Creek has the ideal climate of the state and that the attractions here would bring more tourists to this place than to any other in the state of Colorado. It is merely a matter of a little enterprise and of course it requires the spending of some money. But the man that has the nerve to do it will reap a rich harvest. The accommodations and the advertising are all that are needed to make Cripple Creek the most noted summer resort of the United States.—(Cripple Creek Star.

The nomination of good, clean county officials is one of the most vital importance to every taxpayer. It is his business and demands his attention as much as his personal business affairs should do. The fall elections are drawing near and it behooves the voter to pause and consider the qualifications of those who aspire to renomination. The officials who has demonstrated his worthiness by efficient service may be retained, but the shark who has simply filled the position for revenue only, should be boosted out high and dry in the convention, lest the ticket be encumbered by useless timber. We are pleased to note that a number of leading Democrats are preparing to take a hand in the county house-cleaning this fall.—(Ouray Plaindealer.

Colorado is going to celebrate her 25th anniversary of admission into the union as a state in two great celebrations, one at Boulder, the other at Colorado Springs. August 1 is the day for the Boulder celebration and on August 2 Colorado Springs will do herself and the rest of the state proud in honor of the event. The celebration at the latter place will last three days and it is expected that immense crowds will be in attendance. The city is making great preparations and recent visitors to that place announce that an agreeable surprise will be given all who attend.

The main feature of the Colorado Springs celebration is a visit of Vice President Roosevelt and a banquet to the state press. The magnitude of the affair will surpass anything ever attempted by the city that is never known to do things by halves. It is an important event to Coloradoans and everyone who can possibly make arrangements should be sure to attend.—(Ouray Herald.

The Republican party all over the state has taken new life and everything points to a big Republican victory this fall. Good boys, keep up the fight. A little more [illegible] and Colorado will be back in the Republican column where she was a few years ago, before the people were led away by such reformers as Patterson, Chipley, Pettigrew and others.—(Gunnison Review-Democrat.

Workmen are building the grand stands for Pueblo's state fair and Colorado Springs' Quarto-centennial. It is to be hoped that in each case the structure will be built good and strong, for the public will grand-stand on it at a pressure of 175 pounds to the square foot.—(Pueblo Chieftain.

Newspaper men attending the Quarto-centennial celebration at Colorado Springs are to receive all that's coming to them—in other words the town will be thrown open to them and they are to be allowed to [illegible] help themselves to the best the Springs has in the larder. Chairman Russell Wray, of the press committee, will see to it that "the boys" are treated nicely and everything that can be done for their comfort. This Quarto-centennial affair is to be a big thing, which every person who can should attend, and there is no amount of advertising will mash it along more than a press notice, so why shouldn't the newspapermen be [illegible] taken care of.—(Fort Collins Argus.

We are in receipt of a lengthy communication from Louis R. Ehrich of Colorado Springs, the same that has appeared in a number of state papers. In it he arraigns Governor Orman for his course in dropping Hoyt in favor of Martin as warden of the penitentiary. We are not disposed to publish the article for the reason that we approve of the course of the governor, believing that the change will prove the betterment of conditions at the penitentiary. We will not go into particulars but simply state our position. As said in our editorial [illegible] we are in accord with Warden Martin's ideas of the proper treatment of convicts and we are anxious to see them carried out at Canon City.—(Florence Citizen.

We acknowledge the receipt from the Quarto-centennial Press club of an invitation to the banquet to the Colorado editors at the Antlers hotel, Colorado Springs, on the evening of August 2. Thanks, gentlemen; if there is any place we shine it is at a banquet like this, alongside of such other eminent men as Theodore Roosevelt, William J. Bryan, etc. We'll be there.—(Fountain Dispatch.

Following on the heels of the Cripple Creek week of festivities comes Colorado Springs with its Quarto-centennial celebration and Elks street fair next week. As usual, the Springs will depend largely upon the Cripple Creek district for success.

That the celebration in the Springs will be an exceedingly success is assured. Hundreds, if not thousands, of Cripple Creek citizens will attend the celebration. Many attractions have been provided and the citizens of the Springs have prepared a most cordial welcome for all visitors. It will pay you to spend at least a day or two at the Springs next week.—(Cripple Creek Star.

Kansas the World's Granary.

(Topeka Capital.)

A leading article in the August Success discusses the wheat industry of Kansas, by William B. Draper. The continued prosperity of the Kansas wheat belt has given this state a name in the grain and flour trade superior to any other state in the union. Nowhere else have farmers been able, not once, but a number of times, to pay for their land by a single crop. The crop is cash and throughout the wheat belt of Kansas farmers in the last week have been depositing large sums in the bulging vaults of the banks, or buying large land holdings, while renters have become owners from the proceeds of a single year's labor. It is nothing unusual for a farmer to walk into town with a wheat crop for sale and come back with a deposit of $5,000 in bank to show for it. Referring to the present crop, Mr. Draper says:

"In Kansas, this year, five million acres are covered with wheat, which will produce [illegible] and hundred million bushels. This means at least ten dollars per acre to the farmers, an income of fifty million dollars. The crop would, if put into cars, make a train long enough to reach from Wichita to New York, with ten tons in each car. The money would take three years to count, if placed in silver dollars. It has been used, of late, in paying debts, building farm houses, purchasing diamonds and rubber-tired rigs, and other luxuries of the rich. Kansas farmers have made enough money in three years to plaster almost a square mile with dollar bills, and most of it has been made from wheat.

"The crop of 1899 brought $22,015,265. That of 1900 realized $41,624,096 from 76,555,555 bushels. The 1901 estimates are 100,000,000, which, if sold for 50 cents a bushel, will bring $50,000,000. This makes three enormous crops, bringing times as much as any other product or enterprise.

"The yield per acre now averages 20 bushels. In some places, where the land is exceedingly rich, the yield mounts up to 50 bushels per acre, while in Sumner county, it was 30 bushels on a general average. Sumner county produced 5,000,000 bushels of wheat last year or more than that of several of the eastern states together. It is the banner wheat crop of the state. The farmers of that county are worth, on an average, $3,640 each. They have formed a society called the Ten Thousand Dollar club, and nearly all are members.

"Nowhere but in Kansas can you find a county mainly composed of small landholders whose average wealth is upwards of $3,000. This is the fact in Sumner county, the foremost agricultural community of the world.

Getting Rid of the Mosquito.

(Philadelphia Inquirer.)

If five years ago one had asked a scientist how to get rid of a mosquito, the answer would, undoubtedly, have been: "Slap him." Now the mosquito is taken as seriously as the small-pox or diphtheria. There are those who take little interest in the germ theory, but are willing that anything shall be done to get rid of the pest that flies by night and wastes human blood at noonday, singing a horrid refrain the while. The British scientists have done much to trap the mosquito to his death in India, and have laid out a plan by which they think that the past can be exterminated in a generation by the expenditure of a few hundred millions of dollars. As they haven't the millions they are going at it gradually, and there is hope that something of importance will be accomplished.

In this country the natural habitat of the mosquito is New Jersey, and of his energy and intelligence most everyone is aware. It is natural that this particular state should take the liveliest interest in destroying the species. Consequently we find the scientific sharps at work, and they have unearthed an enormous amount of information of which the multitude has long been ignorant. It seems that a mosquito is not a simple sort of creature with a sole desire to absorb human blood. The mosquito has a versatility that is surprising, and there are many kinds of him that one wonders how he ever got split up into so many varieties. Some are vicious and some are not, though we confess never to have seen any of the latter kind. Some carry malaria and some do not, and some prefer cattle to the "human variety." We have before us a book devoted to the subject which shows more kinds of mosquitoes than there are types of men; but as we cannot feel than any of them serve any useful purpose we are in hearty sympathy with the efforts of the scientists to get rid of them all.

The sharps at Trenton say that the further south in Jersey you get the larger and more dangerous the mosquitoes become. [illegible] will be made near Cape May. Coal oil is to be used, and if the people do not suffer more from the stench than from the bites it would seem as if the end of the mosquito were at hand. We are in sympathy with the movement, but we suspect that it will be some years before the song of the mosquito is no longer heard in the land, when we can [illegible] into mousetraps or our canopies into counterpanes.

We can lay low this pest of mankind is deserving of the rod, reward for scientists a monument after death.

THE

Safety Deposit Vaults

OF THE COLORADO SPRINGS BANK

Are of the most modern construction, and are designed to fully meet the wants and serve the convenience of patrons. Boxes for securities and important papers may be rented at reasonable rates; storage vaults are also provided for the safe keeping of silverware and other valuables.

Inspection of These Vaults Is Respectfully Invited.

Stocks and Bonds

The fortunate holders of high-grade securities always realize on their investments. Dividends are issued to them at stated periods, and they are wholly free from the care and anxiety attending the ordinary lender or investor. In this connection the new series of bonds now being issued by The Assurance Savings and Loan Association deserve attention. They are secured by first mortgage on carefully selected, improved real estate, and their six per cent. interest coupons are paid regularly on the first days of January and July. For particulars call at 109 E. Kiowa St.

...tion separately, will be seen and understood at the fair tonight. It only costs ten cents to get in. What it costs to get out depends entirely upon the visitor. There is more to be seen for the admission price of ten cents, however, than there is anywhere else that Colorado Springs people can go tonight for a good many times that sum.

Most of the booths are entirely decorated now and the scene is one of inspiration. Merchants are asked to take notice, however, that the booths must be done and in shape for inspection at 2 o'clock this afternoon.

At 6:45 the Elks will meet at the lodge room for the purpose of marching in the parade. The Colorado Midland band, which returned yesterday morning from Milwaukee, will head the parade and 500 Elks will be in line. Everyone should make it a point to be down town at 7 o'clock to see the parade.

NOW READY

Details Are Worked Out and the Big Parade Will Start the Ball at 7 O'clock Tonight.

Mr. Oppenheimer, who is the manager and proprietor of the Midway attractions at the fair, says he has been in this business ever since the World's fair at Chicago, and that he has never seen a street fair to surpass this, nor none to equal it with the exception possibly of St. Paul and one or two others.

The fair committee yesterday received a promise from every hotel in this city, Manitou, and Colorado City that the Elks fair would be advertised at the foot of every bill of fare throughout the week.

The press committee has received a large number of clippings and marked copies of state papers, showing the complimentary notices that have been given to the fair and the friendly feeling displayed towards it in all parts of the state.

At 7 p. m. the Elks lodge, 500 strong, in uniform of black coat, white duck trousers, black shoes, purple belt, purple tie, straw hat with purple band, cane with purple pennant with initials, B. P. O. E., headed by the Colorado Midland band, will march from the lodge rooms through the principal business streets to the fair grounds where they will formally and officially open the great street fair and carnival.

So far no one has accepted the offer of $1,000 to enter the cage with Wallace, the man eater.

Every booth at the Elks street fair has already been taken and many of them are most handsomely decorated. The work of preparation was continued through the night, and by the time that is set for the official opening one of the best street fairs ever held in the west will be ready for the inspection and the admiration of the people of Colorado Springs.

The list, practically complete, of those who have taken booths at the fair, is as follows:

MAYOR RETURNS FROM OURAY

Thinks Thomas F. Walsh a Princely Entertainer and the New Library a Fine One.

Mayor J. R. Robinson and wife returned yesterday morning from Ouray where they have been the guests of Thomas F. Walsh for several days.

The occasion for the mayor's trip to Ouray was the dedication of the splen-

...did library built by the father of Mr. Walsh. From the time the honored visitors left Denver they were the guests of Mr. Walsh. A special car was put on the train at Denver, which was provided with every necessity for the comfort and convenience of the travelers. The party took breakfast at Salida and at Montrose they were met by Mr. Walsh, Congressman Bell and others. The journey was ended about 6 o'clock in the evening when Ouray was reached.

Speaking last night of his trip and of the splendid time he enjoyed in the western part of the state, Mayor Robinson said:

"We had a grand time from start to finish. As the guests of Mr. Walsh we were treated royally, and extended a most hearty welcome. No host could be more hospitable and more considerate of the comfort and pleasure of those about him than is the great mining king. He is a modest, unassuming man, yet one who commands the respect and esteem of all who come in contact with him. The success and pleasure of our trip was due in no small degree to Mrs. Walsh, who is certainly a most charming hostess.

"As to the new library it is magnificent for a town of the size of Ouray. It is beautifully furnished and is complete in every way. The building cost about $20,000, and the books it contains represent $10,000 more.

"On the first day after our arrival we visited the famous Camp Bird mine. The party was followed by 18 caterers brought from Denver who served lunch-

we drove over to Silverton on a picnic and had a delightful time. After a banquet the ceremonies were brought to a close by a grand ball, which was certainly a brilliant function. I was surprised to find a number of young men present who are students in eastern universities. They are spending the summer working in the mine. There are also a number of boys from our own school of mines working about Ouray. These young men labor all day in their overalls and then appear as shining lights in their dress suits at night."

At the banquet Mayor Robinson responded to a toast, speaking on the ... and inter-dependence of our municipalities. He paid a glowing tribute to Colorado Springs, and referred to her loyalty to the state as a whole. In closing he spoke of the Quarto-centennial celebration and invited all the guests present to visit this city during the jubilee. The mayor says a drilling team will come from Ouray to take part in the contests.

"That is a grand country there in the west of our great state," remarked Dr. Robinson. "It is a district with a brilliant future ahead of it, a land of great opportunities. No better people and no more loyal citizens than those of Ouray live any place in this state, or in any other."

Present Schedule for Sprinkling

The water commissioner has arranged a new schedule of periods during which persons may use the city water supply for sprinkling lawns. The schedule as now announced follows:

East of Prospect street and south of Pike's Peak avenue, 5 to 8 a. m. and 5 to 8 p. m.

East of Prospect street and north of Pike's Peak, 5 to 8 a. m. and 7 to 8 p. m.

Block 236, 5 to 8 a. m. and 7 to 8 p. m.

Corona addition, east of railroad, 5 to 8 a. m. and 7 to 8 p. m.

North of Washington street and south of Tejon, 5 to 8 a. m. and 7 to 8 p. m.

West of Spruce street and north on St. Vrain to Chestnut, and south of Mesa road, 5 to 8 a. m. and 7 to 8 p. m.

La Veigne and Hobbs additions, 5 to 8 a. m. and 7 to 8 p. m.

South of Rio Grande street east of South Royer, 5 to 8 a. m. and 5 to 8 p. m.

Those who live on farms are liable to many accidental cuts, burns and bruises which heal rapidly when Ballard's Snow Liniment is promptly applied. Price 25 and 50 cents. Hefley-Arcularius Drug Co., 21 South Tejon street.

FLEMING,
THE EMBALMER,
PARLOR 16 E. BIJOU. PHONE 534.

BIG CROWD WENT TO PROSPECT LAKE

Almost 2,000 people went to Prospect lake yesterday to enjoy a dip in the cool water, and to see the small boys compete in the tub races. The races proved to be a great success and afforded great fun for the spectators as well as for the contestants. There were two races, each of 100 yards, the course being 50 feet straight and back, turning about a stake. The entries for the first race were as follows: Kent Wiswell, Willie Smithline, Eliza Williams, Willie Hayden and George Elstun. Willie Smithline proved to be the fastest paddler and secured the prize. The following boys entered in the second race: Roy Heller, Ed. Pendergast, Kent Wiswell, Miles Huffman and W. McManmin, the last named winning after a lively struggle.

In order to avoid a great deal of trouble which the boys found in turning the goal stake, the races in future will be 160 yards straight away. Every boat and bathing suit was in use throughout the entire day. To satisfy the demand for more boats, the management has contracted for a number of row boats, which are now under construction by the Newton Lumber company. They will be placed on the lake in a very few days.

White's Cream Vermifuge not only effectually expels worms, but is unequaled as a tonic, and is a certain and permanent cure for chills and fever in children. Price, 25 cents. Hefley-Arcularius Drug company, 21 South Tejon street.

Cycle Chairs for Elks Fair.

AMERICAN FLAG STILL NEEDS A GOOD NUMBER OF THEM.

High School to Have Complete Representation in the Big Quarto-Centennial Parade.

There is still room for several girls in the American flag, and the teachers request parents urgently to send more. The number of boys is about complete now. All children must come at 4 o'clock Monday afternoon to match and practice singing.

The High School battalion will take part in the Quarto-centennial parade. Also the girls of the fourth class—the latter will come dressed in white and bear wreaths of flowers.

In this manner the High school will make a very fine showing, and undoubtedly produce an effect that no float could have made.

The battalion will also take part in the reception of Vice President Roosevelt. Professor Ahlers has not yet determined exactly just what the young soldiers are to do, but they will be there to protect the flag formed by their younger brothers and sisters.

BOYS AND GIRLS TO HOLD FLAG REHEARSAL

The school children who are to form the lively American flag in the parade in honor of Vice President Roosevelt Friday morning will hold another rehearsal this afternoon. The boys and girls are requested to meet at the High school at 4 o'clock.

As the children have been assigned to their places in the flag formation and have received their costumes this afternoon's meeting will be devoted to rehearsal in singing the "Star Spangled Banner," under the direction of Mr. Crampton and Miss Higgins.

About 300 children have already promised to take part in the parade. The committee is anxious for more girls between the ages of 10 and 14 years to participate. Professor Scott is chairman of the executive committee and his associates are Mrs. Borfree, Miss Remick and Mrs. Rudy.

Professor Ahlers, of the centennial committee, is in charge of all the arrangements for the formal welcome to the vice president.

Read the Wants

THE FAMOUS CALERA GOLD MINES

Now to Be Thoroughly Exploited by the Calera Gold Mining Company Headed by Mr. Ramsay C. Bogy of Denver.

Ramsay C. Bogy, the Denver banker, has formed a company to handle his famous Calera group of gold mines in Sonora, Mexico, which he purchased last year and which has shown up so well under his development during the recent spring. The company is to be known as the Calera Gold Mining company, Mr. Bogy remaining at the head of the venture as president of the new organization. John G. Mitchell of the Denver National bank is vice-president, and W. B. Quintin, president of the Little Nell Gold Mining company, secretary and treasurer. A. F. Wuensch, the well-known mining engineer, who made the report upon which the property was bought, has accepted the management.

At the time of the purchase Mr. Bogy says he considered operating the mine as a private enterprise, but having become so encouraged by the outlook in Calera he has invested heavily in other surrounding property and believes he can pilot his various Sonora ventures more advantageously by placing the main proposition in the hands of a corporation. The mine has already proved that it will be a big dividend payer as soon as a mill is erected and Mr. Bogy's friends will be given a chance to get in on the profits.

The new company is to have a capitalization of $750,000, divided into an equal number of shares at a par value of $1. The treasury is to receive 150,000 shares, together with $10,000 as a working fund, and the treasury stock is to be placed on the market at 20 cents.

Hitherto Mr. Bogy has spent a great deal of money in the development of the group and an immense amount of ore has been blocked out, active production being withheld until the concentrating plant is ready to start. The rock is free-milling and the treatment will therefore be an economical proposition, insuring a big profit from every ton running $10 or over. Much of the ore could be handled at a handsome profit by sending it to the smelters, as it runs as high as $100 and over, and all additional development has proved up an additional average value to the output. Such a shipment, however, would entail an expensive haul to a railroad 37 miles away, and the expense of freighting from thence to the smelters. It has therefore been decided to treat all the product on the ground, and a mill will be erected immediately. The San Miguel river runs about one and a half miles from the group, and upon this stream valuable water rights, together with a mill site and a ditch, have already been secured.

To show that La Calera was never fully appreciated by its native owners Mr. Bogy's attention has been called to the fact that it was worked for years by primitive methods, yielding good returns to the Mexicans in spite of their want of scientific principles. There are workings on the property that show themselves to be generations old.

In the same vicinity, as the ancient chronicles are many other mines that have produced millions for their owners. Twenty-eight miles north is the famous Santa Rosalia mine, a gold property that was worked in the early days of Sonora, not only making its proprietor wealthy but enriching all his relatives. The records of the mine and its ownership are in a great measure traditional and there is no means of knowing in exact figures what its yield was, though it is said to have been enormous. The owner endowed several churches, which are still standing.

About six years ago an interesting fact came to light with reference to the Santa Rosalia. Americans who uncovered the property found at the mouth of the tunnel leading to the lower workings a stone wall that completely enclosed the subterranean passage. Farther in a gate made of iron bars was discovered, leading further security to the black depths of the treasure-house.

The mine has since been worked by Messrs. Daggett and Abbott, who have taken out annually hundreds of thousands in ore averaging $1,000 to the ton, besides accumulating a large dump of mill ore, for which a quartz mill is now about to be erected.

The famous La Prieta district, which has produced during the past decade or two $60,000,000 in gold, lies to the south of La Calera. In this district are operating the Grand Central and Amarillas mines, owned by an English company; the Colorado and others, owned by the Chamberlin estate of Cleveland, and the Prietas, owned by Sonora people. Milling and cyaniding plants are in operation there on an extensive scale.

East of La Calera about 40 miles is the Esperanza de Picacho of Phelps, Dodge & company of New York. It was discovered about one year ago and purchased by the big eastern firm for $150,000 at a time when the deepest hole was only 12 feet down. Its pay streaks now run from $200 to $3,000 to the ton, and 4,000 or 5,000 sacks of ore have been piled up waiting the completion of a railroad which the firm is building. These sacks are said to be worth nearly $100,000.

La Calera group includes four claims, the Edith and Florence, the Rosalia, the Calera and the Cowan, all patented except the latter, which soon will be so. The property lies in a southeasterly direction 37 miles from Magdalena, a point on the Southern Pacific railroad 60 miles from Nogales, Ariz.

The manager of the new company, A. F. Wuensch, is one of the best known mining experts of the west. He was for years identified with the Smith-Moffat interests. It was upon the strength of his reports and maps that the mine was purchased. He has conservatively figured that the straight yield of all the ore now blocked out, an immense supply, will average $30 to the ton, but other estimates have placed the average as high as $50. It is flattering to the owners to know that the values improve constantly with depth.

INFORMATION CONCERNING MINES AND MINING INVESTMENTS IN UTAH

Leaving out the numerous properties that have paid vast sums to individuals and closed corporations, such as the Eureka Hill, Old Honerine, Ophir Hill, Annie Laurie and Quincy, the mines of the various producing camps have paid over $40,000,000. Among the dividend payers are the following:

Capitalization—No. Shares	Par Value	Name of Company	Total Dividends
200,000	$10.00	Ajax	$ 1,000,000
400,000	25.00	Alice	1,115,000
100,000	10.00	Britton-Peck	2,425,000
100,000	25.00	Centennial-Eureka	2,547,000
1,000,000	5.00	Consolidated-Mercur	1,841,000
2,500,000	1.00	Dalton & Lark	337,250
450,000	20.00	Daly	2,926,000
150,000	25.00	Daly-West	957,500
100,000	10.00	Galena	71,000
250,000	1.00	Grand Central	631,000
100,000	25.00	Horn Silver	5,290,000
400,000	25.00	Mammoth	1,550,000
150,000	25	May Day	18,000
200,000	100.00	Ontario	13,652,500
200,000	5.00	Petro	50,000
100,000	1.00	Rocco-Homestake	44,000
150,000	5.00	Sacramento	128,000
150,000	20.00	Silver King	4,250,000
200,000	20	Silver Shield	4,500
100,000	5.00	Swansea	201,500
300,000	1.00	South Swansea	158,000
150,000	1.00	United Sunbeam	350,000
100,000	10.00	Utah	189,000

In 1900 dividends were paid to the amount of $2,600,000. The estimated amount of dividends for 1901 is $4,000,000.

PRODUCTION OF MINES.

	1900.	1899.
Gold	$ 4,125,220.00	$ 3,465,320.00
Silver	6,245,510.67	4,612,351.05
Copper	2,514,532.40	1,246,000.00
Lead	3,122,583.25	2,701,869.00
Total	$16,011,296.72	$12,025,540.05
	12,025,540.05	
Increase over 1899	$ 3,985,756.67	

The production for the first six months of this year amounted to more than $10,000,000, and it is estimated that the year will close with a total of $25,000,000, an increase over 1900 of $9,000,000.

Among the most important of Utah mining districts are the following:

Park City.—The camp is located 30 miles east of Salt Lake City. Has a population of some 6,000, and is surrounded by three districts, Uintah, Blue Ledge and Snake Creek. It is reached by two railroads. Primarily a silver-lead region, although gold has recently been found in goodly quantities.

Some of the famous Ontario, Silver King, Daly, Daly-West, Quincy, Crescent, Anchor, California, Comstock and other dividend-paying and producing mines. Nowhere are there more underground workings. Special mention should be made of the Ontario Daly four-mile drain tunnel.

Tintic District.—Lies about 75 miles east of south from Salt Lake City on two lines of railroad. Principal towns Eureka, Mammoth and Silver City. Here are immense mineral zones of Dolomitic limestone, which stand perpendicular. The ore bodies run north and south with the strata. Gold, silver, lead and iron are produced. Utah's deepest mine, Mammoth, 1,700 feet, is here. Other noted mines are Centennial, Eureka, Hallowback, Griffith, Eureka Hill, Grand Central, Lower Mammoth, Swansea and Ajax, with the Yankee Consolidated, May Day, Uncle Sam and numerous other prospects marked up as destined to make great names for themselves.

Bingham.—Lies 25 miles south of west from Salt Lake City and is reached by the Rio Grande Western railway. Population of town about 1,500. Lead, silver, copper and gold are produced. Among the large producers are the Highland Boy or Utah Consolidated, the Bingham Copper and Gold company, the United States, Boston Consolidated, Winnamuck and many others, which have long since earned the title of "Old Reliable Camp" for Bingham.

Mercur District.—Lies about 50 miles from Salt Lake City. Lead, copper and gold ores are found here valuing from $3 to $12 per ton. The Ophir district lies four miles northwest of the town of Mercur, the mines of which produce silver, gold and lead. Among the mines of the two camps are the Consolidated Mercur, Sacramento, Geyser, Marion, Sunshine and Ophir Consolidated.

Big and Little Cottonwood.—On the slope of the Wasatch range and 20 miles south from Salt Lake City. The formation is limestone akin to that of Park City. The ore occurs in bedded veins. Among the mines are the Emma, Regulator, Grizzy and Wasatch King.

Other Districts.

Stockton, Park Valley, Gold Mountain, Marysvale, Deep Creek, La Salle and San Francisco districts are a few of the nearly one hundred different mineral-bearing sections of Utah that have attained to more or less prominence, and in all of which good mines are located. In all the camps of Utah the communities are most orderly and the wage scale is commensurate with the requirements of the times and strikes are a practically unknown quantity. Among other reasons the great permanency and richness of the mineral veins and deposits, even climate, abundance of water, fuel, etc., make capitalists find Utah a safe place for investments.

Mining Stocks.

During 1900 stocks sold on the Salt Lake Stock and Mining exchange amounting to 5,156,495 shares that represented a cash value of $2,526,609.34. In the past six months there has been such an increase in the mining industry and the mines having responded so well to the clatter of hammer and drill and the roar of exploding giant that all previous records have been shattered and the year promises to considerably more than double the figures of stock sales during 1900.

THEY ARE PERSONALLY CONDUCTED.

The California Tours, twice a week, via the Colorado Midland railway, leaving Denver 8:30 a. m. each Wednesday and Thursday, include the personal supervision of experienced excursion managers who accompany each party through to Los Angeles, in the splendid Pullman tourist sleepers which are used for those tours. Special attention is given to ladies and children traveling alone; places of interest en route pointed out; descriptive pamphlets furnished; everything done for the comfort and enjoyment of passengers. The best of Colorado scenery is passed by daylight. The cost of double lower berth in tourist sleeper through from Denver to Los Angeles or San Francisco is but $4.50.

MARKET LETTERS

BONBRIGHT & CO.'S MARKET LETTER

With a few notable exceptions, the market generally has been listless during the week and prices as a rule have been lower. On Monday and Tuesday the trading was spirited in some of the shares, but the midsummer dullness was emphasized during the remainder of the week. Elkton, Portland, Vindicator and Golden Cycle were the strongest of the stocks, and this strength was evidence of the general confidence in these market leaders. Elkton was very strong and in great demand at $1.70 to $1.75. Very few sales in Portland were recorded, but the stock was strong around $3.05. Vindicator's splendid showing is responsible for the price of the shares which advanced to $1.19 today. "Doctor Jack Pot" was feverish and easily swayed by bulls and bears. On Saturday last the stock sold at 60c, seller 30, and advanced to 66c on Monday, then dropping to 62½ on Tuesday it declined still further the following day and to 60½ on Thursday. The price was 62 today. Both of the silvers, Mollie and Ajax, were inactive, no sales of the latter being recorded and the former selling at 30½ to 26. El Paso and C.C. Consolidated were both active, the first mentioned selling as high as 48 on Tuesday and dropping to 43¾ today. Colorado advanced from 22¾ to 24 and then receded to 22¾. Anaconda advanced from 30 to 35, but Isabella was weak and inactive around 42. Both Gold Dollar and Eclipse declined slightly, the former selling down to 15½ and the latter as low as 12½. Other prices were Golden Cycle, 63 to 63½c; Ingham, 10½ to 11c; Pharmacist, 7½ to 8c; Pointer, 7½ to 8½c; Work, 13½ to 15c; Bonnie Nell, 94½ to 95½c; Mollie Dwyre, 64½ to 65c; Gold Knob, 6 to 7c; Zoe, 3½ to 4c; Acacia, 14½ to 15½c; Sedan, 6½ to 8½c.

DELANY & DELANY'S MARKET LETTER

July 27, 1901.

It is a long road, indeed, that hasn't a turn, and if we divine not incorrectly, the mining market is about to witness a change in its course for the better. Improved physical conditions of the large mines would seem to forecast a radical deviation from the straight and narrow path of conservatism and stagnation. Sure-hand to mouth trading experienced within the past few months cannot endure.

The increased earnings from the large producers must and will have its effect on the speculative and investment feature of mining shares. The distribution of dividends tends to show an increase over previous years, and experience has shown that the recipients of such regular profits are the best and most active traders in the market. It is to be regretted that all outside investments are not of this character, and we believe if more of them were held by the public in general, more money would be available for investments in those of lesser values we do not wish to discredit the many excellent opportunities offered for large profits in the low priced stocks, but the risks, in our opinion, should be borne nearer home. We need not suggest that the occasional enormous profits necessarily incur equally great risks. It is sometimes good judgment to invest the bulk of your savings in the shares of those companies whose properties have gone beyond the experimental stage of their development.

It has been truly said, "'Tis a good divine that follows his own instructions." We accept the truth of this, but then unless you make mistakes how must you profit thereby. Better go butting ahead and make a few errors, yea, many, if you will than to linger along in a fool's paradise of contented mediocrity. You cannot attain perfection any more than some foolish girls' idealist lovers. The road to success is anything but a bed of roses.

SO SOOTHING

Its Influence Has Been Felt by So Many Colorado Springs Readers.

The soothing influence of relief. After suffering from itching piles. From eczema or any itchiness of the skin.

Makes one feel grateful to the remedy.

Doan's Ointment has soothed hundreds.

Here's what one Colorado Springs citizen says:

Mr. E. H. Downer of 512 South Cascade avenue says: "Itching hemorrhoids annoyed me for 20 years and for at least 10 years were chronic. I was never free from misery and do what I liked I was unable to obtain relief. Now, when Doan's Kidney Pills procured at Jones & Wellington's drug store, 109 N. Tejon street, so greatly benefited an old and stubborn case of hemorrhoids like mine, I conscientiously believe that in the earlier stages the treatment will prove invincible. I never received as much benefit from any remedy I ever used."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.

The Strike and New York Stocks.

Confidence in the reported settlement of the steel strike caused a sharp advance yesterday. Advances over present prices will be rapid and large. We fill orders for stocks and grain, private wires. Pike's Peak Brokerage Co., Durkee building, 23 E. Pike's Peak Ave.

In connection with the Quarto-Centennial celebration, the Colorado Springs Elks have arranged a **GRAND STREET FAIR** to be held at Colorado Springs, July 29-30-31, August 1-2-3. No effort has been spared, no expense has been too great to be put forth in the endeavor to make this an exhibition of surpassing interest and grandeur. BOTH HEMISPHERES HAVE CONTRIBUTED THEIR MOST NOTEWORTHY ATTRACTIONS to instruct, entertain visitors to Colorado's celebration of her twenty-fifth birthday as a state in this grand union of states. Colorado's population and her tourist visitors should all be here. East or west, north or south has seen no better Street-Fair.

8 Blocks of Colorado Springs' Streets Will be Crowded to Overflowing with Superb Attractions.

Don't Miss the Show of the Year. For the first three days of the Street Fair constant CONCERTS WILL BE GIVEN BY THE FAMOUS COLORADO MIDLAND BAND. For the other three days the most celebrated bands from all points in Colorado will vie with each other in entertaining the public.

The World's Most Famous Midway will be there

The Midway entrance will be brilliantly illuminated at night by hundreds of electric lights the Streets by innumerable electric arc lights. Visit the Midway and see

THE GERMAN VILLAGE

German Refreshments served by a celebrated caterer

Continuous performance on a large and well lighted stage by

The Famous Tyrolean Warblers

6 of them, natives of Switzerland and in their native costumes

Full Orchestra

of high class German musicians

Edwards Brothers

Famous Jugglers, Trapeze Performers, contortionists and Bar Athletes

Mlle. Adele

Famous Song and Dance Artist

Clifton

Equilibrist and Juggler.

The Loreno Family

Four famous performers showing feats of strength, balancing, ladder balancing with persons on top of it, etc.

The Village is tented to protect it from heat and rain

Have You Seen George?

He'll Make You Laugh

George, the midget Negro, 18 inches high, but containing a wagon load of clean fun and sparkling humor. A platform entertainer with a record of more encores from audiences of women and children than any other living competitor.

BE SURE AND SEE GEORGE!
He'll make you laugh!

The STEAM MERRY-GO-ROUND

A good old fashioned sport for all ages and kinds of folks

THE Whirling Dervishes

in their wonderful performance of

GUN SPINNING

and balancing with full size, full weight, bayoneted army rifles and sing

KNIFE AND AXE THROWING

Posing a living person before a background of heavy planks they throw small and large knives and immense scimeters, sticking them into the wooden background in a regular line within a fraction of an inch of the model's body and limbs An awe inspiring exhibition of oriental dexterity

The Ferris Wheel

An exact counterpart in smaller size (60 feet high) of the famous Worlds Fair Ferris Wheel. Have a ride up toward the skies.

The Electric Theater

A variety of picture machines showing the latest novel and interesting subjects on an immense canvass.

The Animal Show

Nine lions, eight of them trained and exhibiting their tricks under the supervision of a lion tamer of world wide reputation. The ninth is **WALLACE, the Man Eater,** the only untamable lion in captivity. Has killed three lion tamers. Trained bears, monkeys, ponies, dogs, etc.

Magnificent Industrial Display

800 feet of booths displaying Fashion's latest fancies in dress and adornment. Colorado Springs industrial institutions exhibition. The retail merchants show the public free of charge the latest products of the manufacturers in wearables, eatables, decorative art, home furnishings and pleasure bringing devices.

Three Gypsy Camps

where original Gypsy nomads tell your fortunes in a variety of their different methods, including Palmistry and Phrenology. In one camp is the most noted Gypsy of them all he locates hidden scars and describes them and their origin.

The Cowboy Camp

FREE ATTRACTION...

A camp of Cowboys in their spectacular dress, with their wagons, tents, ponies, and utensils of all kinds. They will camp and live at the street fair just as they do in real life on the plains.

The Electric Fountain

A spurting fountain sixty feet high illumined by thousands of multi-colored electric lights. The streams of water shooting high in the air fall outward as they descend. In the center, clad in flowing robes is a dancing girl ever going through the figures of the Butterfly, Serpentine and other dances and never getting even a drop of water. In the closing scene of this magnificent display the water forms a hollow pyramid while the dancing girl, still continuing her graceful motions, gradually rises to the apex, sixty feet high, then suddenly all disappears.

INDIAN VILLAGE

with native Utes and Santa Clara Pueblos with their tepees, cooking outfits ponies, families, and showing their weird religious dances.

The Dog and Pony Show

A large troupe of well trained dogs and ponies showing new and wonderful tricks. A master illustration of man's power and control over the brute creation. Animals with an artificial intelligence almost human.

JERUSALEM -- THE MECHANICAL CITY

A true historical reproduction of the city of Jerusalem of Biblical times The costumes, methods and scenes of those ancient times accurately set forth by moving figures and scenes worked by a most intricate set of mechanism a modern mechanical wonder

THE STREETS OF CAIRO!

15 Native Turks in Native costume. Camels you can ride on if you don't get seasick. **Many Street Scenes,** showing Oriental marriage ceremonies, the Mohammedan prayers, wonderful sleight of hand performances and exhibitions of the black art of the Dark Continent. **Basco, the Snake Eater. Lunette,** flying lady illusion. **Aimee Dancing Woman,** fifteen separate novel dances, Exhibiting under the glare of three calcium lights of tremendous power in garments of flashing cut steel, the world's greatest exponent of the terrible looking **Fire Dance** in which she appears as a mass of flames and in her movements throws off apparently burning brands, **The Newest and Most Astonishing Dance,** the Lily Dance in which Aimee appears in a robe composed of 680 yards of white silk, in the final climax of this wonderful exhibit of womanly grace and dextrous motion Aimee revolves with lightning-like rapidity, her gown following her evolutions and gradually floating higher and higher above her head until it ultimately forms an almost perfect calla lily shape with Aimee as the stem. **THE TURKISH THEATER** with the Turkish dancing girls in their native religious and dramatic dances.

PHENOMENAL EQUILIBRIST

LIONEL LA GARE

In his difficult and perilous trip from pinnacle to foundation of a high spiral path, balanced, head down, on a small sphere or roller skate. An inclined pathway winds around a steel center, many feet up into the air. La Gare, standing on small sphere, rolls it and himself downward, or head downward, and balancing on one hand on a small roller skate, makes the dangerous descent, which is seemingly impossible with safety to the performer. A slip, a mistake, a loss of balance, may mean instant death.

These Are Some of the Principal Attractions

They comprise the greatest aggregation of interesting, novel and dangerous entertainments ever brought together in one show in the West.

If you miss the Elks Street Fair you'll miss a spectacle of a lifetime. Take a day off, visit the Elks Fair and Get Glad. You'll live longer.

NEWS AND NOTES

APOSTLES TOOK THE HIGH GAME

Won Out at Cripple Creek by a Score of 12 to 8.

A GOOD CROWD WAS OUT

Game Was a Success In All Points Save That the Millionaires Lost Ground Was Too Rough for Fielding.

Colorado Springs	31	44	.431
Denver	28	44	.389

GAMES YESTERDAY.

Kansas City 3, Omaha 1.
Minneapolis 8, Denver 4.
St. Paul 12, Colorado Springs 8.
Des Moines 1, St. Joseph 0.

St. Paul won from the Millionaires in Cripple Creek yesterday by opportune hitting. McNeeley was in the box at the start but was taken out before the first inning was half over after a two bagger and a home run were made off him. This made it necessary for Gaston to pitch and he was still sore from being hit by one of Whitridge's swift balls, and could not do himself justice.

The diamond was in fair condition but the outfield had been freshly plowed and was in a rough condition which made it impossible for a fielder to play a good game. In the third inning while trying to field an easy fly, Hemphill stumbled and fell, allowing a two base hit which would have been an easy out on good grounds. Center field fence was very close in and it was an easy matter to make a home run by placing the ball in the right place.

Rain began falling at the end of the sixth inning, and continued through the game. The 1,500 people assembled on the hillside were not discouraged by the rain and cheered in great style whenever the Colorado Springs men made a good play.

[illegible] Tannehill's fumble of a slow grounder, and scored on Dillard's two bagger. Kelly got first on Holland's muff, and crossed the plate with Brain, on the latter's home run. McNeeley was relieved by Gaston and the next three men were easily out.

Dillard knocked a home run in the third. Kelly [illegible] Brain got a pass, Shannon sacrificed and Cogan hit a two bagger, scoring Kelly and Brain, but was caught on third while trying to steal a base. Kelly got another run in the fifth on his single, Ream's error at second and Shannon's long fly to Hemphill.

Hendrix made the first run for the Millionaires, by a two bagger in the sixth, and Hemphill's single to deep left. In the seventh Holland walked, Tannehill got first on Brain's error, secured third, Holland scoring. Tannehill was caught off third, but by fine work got back to the base, McGill dropping the ball. Ream singled and Tannehill crossed the plate, then scored on Donahue's out to Ryan and Gaston's base hit.

[illegible] batting rattle in the seventh and got three runs. Kelly singled, Brain hit another homer over center field fence, Shannon got a base hit and Cogan a two bagger.

In the eighth Shay singled, Holland walked, Tannehill hit for two bases and Donahue did likewise, netting three runs. Each side scored one in the ninth, Brain and Hernon making the runs. Brain walked, got another on Holland's fumble of Shannon's hit, Cogan walked and Brain came in on Holly's long fly to center. Hernon walked and scored on singles by Shay and Holland.

The attendance inside the grounds was over 2,000. Just before the game the clubs, headed by the Elks band, paraded from the National hotel to the baseball grounds.

Milwaukee 13, Washington 6.
Milwaukee 9, Washington 4.

TAIL ENDERS TAKE TWO.

Milwaukee, July 28.—Milwaukee and Washington played two games today, the home team winning both by the great work of Garvin and Hawley in the box. Garvin especially was effective, shutting the visitors out in the first game with only five hits. Gear, in the same game, allowed Milwaukee but one run. Hawley pitched fine in the second and with good support won out handily. The fielding of Conroy, Gilbert, Hoffmeyer and Clingman was brilliant. Attendance 3,000. Score:

	R.	H.	E.
Milwaukee	0 0 0 0 0 1 0 0 0 —	1	8 1
Washington	0 0 0 0 0 0 0 0 0 —	0	1 1

Batteries—Garvin and Donohue; Gear and Clarke.

Second game:

	R.	H.	E.
Milwaukee	0 0 0 1 4 2 1 1 * —	9	10 3
Washington	1 0 0 1 1 0 1 0 0 —	4	7 5

Batteries—Hawley and Maloney; Le[illegible] and Clarke.

RAIN IN CHICAGO.

Chicago, July 28.—Chicago-Boston game was postponed on account of rain.

St. Louis 5, Pittsburg 3.

ENCITING GAME.

Detroit, July 28.—Baltimore started out today to administer Siever the first three men up making singles and the next a double, but from that time until the eighth they failed to bunch their hits. In the eighth Visitors put two singles and a double together and Siever forced in a run but that ended their hitting and wound up an exciting game. Score:

Detroit	0	1	3	0	1	0	1	0	0	— 6 12 1
Baltimore	1	0	0	0	0	0	2	0	1	— 4 12 1

Batteries—Howell and Buckley; Siever and Robinson.

Two base hits, Holmes, Nance, Elberfeld, Kelsey, Williams; three base hits, Elberfeld; home run, Elberfeld; bases on balls, off Siever 1, off Howell 1; struck out, by Howell 1, by Siever 2. Umpires, Haskell and Manassau. Attendance 5,000.

RECORD ATTENDANCE, ST. LOUIS.

St. Louis, July 28.—St. Louis found Philippi easy while Harper was an enigma to the [illegible] batters. [illegible] Exhibition game in the afternoon drew a good attendance, numbering 2,000. Score:

St. Louis	0	0	2	0	1	1	0	0	0	— 5 12 2
Pittsburg	0	0	0	0	0	0	2	0	0	— 2 3 4

Batteries—Harper and Schriver; Philippi and O'Connor.

Summary:

Earned runs, St. Louis 2; two base hits, Wagner, Philippi, Kruger; bases on balls, off Harper 2, off Philippi 1; struck out, by Harper 4, by Philippi 3. Umpires, O'Day and Brown.

YACHTS WILL CONTEST FOR THE ASTOR CUP

Newport, R. I., July 28.—The last day's racing of this year's New York Yacht club cruise will be sailed tomorrow when the yachts will contest for the Astor cup. Every cup defender since the Puritan in 1885 has competed in the sloop class and all have won with the exception of the Defender, in 1895, which was disabled within four miles of the finish when miles ahead. Up to the present year a $1,000 cup has always been given in the schooner class and a $500 cup for sloops. But tomorrow the value of the prizes will be reversed, the larger of the cups going to the sloops, cutters and yawls, while the smaller cup is offered to the schooners. The reason for this change is that for the past few years the schooner fleets have been constantly diminishing, the interest being almost entirely with the sloops.

For tomorrow's races 15 sloops and yawls have been entered, while only three schooners will probably start in that class. As the sloop and yawl class includes, beside the Constitution and Columbia, three yawls and five cutters the owners of these two latter rigged classes of vessels have arranged private prizes among themselves, believing that they have little show with the two cup defenders.

FOR THE CANADA'S CUP.

Chicago, July 28.—The cup committee in charge of the trial yacht races for the selection of a defender for the Canada's cup today allowed the protest entered by the Illinois against the Cadillac. In consequence yesterday's race in which the Cadillac crossed the line a few seconds ahead of the Illinois, has been given to the latter yacht. This puts the Illinois, Cadillac and Milwaukee on the same footing, each having two victories to her credit. The seventh and deciding race of the series will be sailed tomorrow and the three boats only taking part.

WHIST CONGRESS.

Milwaukee, Wis., July 28.—Whist players from all parts of the country are gathering to attend the eleventh annual congress which opens tomorrow. Among the prominent arrivals are Vice President P. J. Tormey of San Francisco. The program includes 18 contests. The first begins Tuesday afternoon, and will be for the Franklin club trophy for 1901-02, the succeeding rounds being played each evening and in the afternoon [illegible] lose and drop out plan, the finals being confined to not more than eight teams.

GRIZZLIES GOT A SHUT OUT

Millers Took Yesterday's Game by a Score of 9 to 0.

WHITRIDGE WAS A PUZZLE

Butler Was Knocked Entirely Out of the Box and Was Succeeded by Schmidt Who Did Better.

Denver, July 28.—The Millers won today's game by a score of nine to nothing. Pitcher Whitridge was a mystery to the locals, allowing but two singles, one of which was a bunt toward third base, and which was clearly a foul, but the umpire's attention was directed toward first base, and he allowed it to stand as a fair ball. The Millers had their batting eye open today, and knocked Butler entirely out of the box at the end of the second inning, making three singles and a three bagger, which, with two errors, a base on balls and a player hit by a pitched ball, netted them four runs. Schmidt was then put in the box for Denver, and for four innings he held them down to a single. In the sixth inning he struck out three men in pitching eleven balls. During the last three innings his delivery was solved by the Millers, they making seven hits which netted them four runs. The game, aside from the pitching of Whitridge, was uninteresting, and no plays out of the ordinary were made. The score follows:

MINNEAPOLIS.

	A.B.	R.	B.H.	P.O.	A.	E.
Belton, rf	3	2	2	1	0	0
Rohe, ss	4	0	1	0	0	0

Score by innings:

Minneapolis	1	1	0	0	0	1	2	1	1	— 7
Denver	0	0	0	0	0	0	0	0	0	— 0

Summary:

Earned runs, Minneapolis 4; stolen bases, Cockman 1, Jones 2; two base hits, Belton, McConnell; three base hits, Belton, off [illegible]; double plays, Cockman to Burkett to Jones, Jones to Burkett to Jones; left on bases, Minneapolis 10, Denver 4; struck out, by Whitridge 5, by Schmidt 5; bases on balls, off Whitridge 1, off Butler 1, off Schmidt 1; wild pitch, Schmidt; hit by pitched ball, Rohe, Preston. Umpire, Davis. Attendance 300. Time of game, one hour and fifty minutes.

GREAT PITCHING

St. Joseph, Mo., July 28.—The feature of today's game was the fine work of both pitchers. A heavy rain put the grounds in bad condition. Score:

										R.	H.	E.
St. Joseph	0	0	0	0	0	0	0	0	0	— 0	5	1
Des Moines	0	0	0	0	1	0	0	0	0	— 1	7	1

Batteries—Maupin and Garvin; Glade and Kleinow.

RAIN STOPPED THE GAME

Kansas City, July 28.—Rain stopped the game today after six innings had been played. Kansas City won by timely hitting. Score:

									R.	H.	E.
Omaha	0	0	0	1	0	0	0	0	— 1	8	1
Kansas City	1	0	0	0	0	2	0	0	— 3	7	3

Batteries—Alloway and Gooding; Wel[illegible] and Beville.

Special sale on Carnival Ribbons in red, white and blue. No. 7, 50c a bolt; No. 9, 60c a bolt; No. 12, $1.40 a bolt. Kaufman's.

GIFT TO THE CHURCH.

London, July 28.—Baron Mount-Stephen announces a gift of 40,000 pounds to the Presbyterian church of Scotland, the income to go to the ministers in his native district of Aberdeenshire and Banffshire.

Fatherless.

There's something about the little black dress that touches a man in a very tender spot. He pats the little one on the head, puts some pennies in her hand, swallows hard and then—starts out to make his own children fatherless. There is no doubt that many a man is taken from his family by neglect of simple precautions which would preserve his health. Disease generally begins nowadays in "stomach trouble" because the meals are hasty and the food not digested. From that beginning come disorders of the blood, liver, kidneys, heart or nerves. The use of Dr. Pierce's Golden Medical Discovery, for diseases of the organs of digestion and nutrition will avert the catastrophe of more serious disease. It strengthens the stomach, purifies the blood, nourishes the nerves, and builds men up in both brain and body.

"I can say to you, one bottle of your 'Golden Medical Discovery' has cured me sound and well, after suffering two long years with stomach disease." [illegible] W. H. Bratwell of McAdenville, Gaston Co., N. C. "My health is worth all the world to me. I will praise you as long as I live."

Dr. Pierce's Pleasant Pellets should be used with "Discovery" where a laxative is required.

Lively Contests With Broadsword and Foil

Considerable interest is being taken by local devotees of the broadsword and foil in the contests that are to take place in front of the grand stand on Cascade avenue next Saturday morning, the third day of the Quarto-centennial jubilee. Prizes will be awarded in all events, the prizes to be paraphernalia to be used in contests of the kind that are to take place. Fencing jackets, masks, shoes, foils, etc., are among the articles in the list.

Several fencers from various points in Colorado and some from other states who happen to be visiting here will be invited to participate in the events and all persons desiring to enter the contests are asked to hand their names at once to Simms' store, 119 North Tejon street.

Capt. Sutton, who handled the movement for the organization of the Foil and Saber club here in the college gymnasium daily from 4 to 7, at which time most of the locals practice.

RACE DRILLING CONTEST PRIZES

The program and regulations concerning the contests, together with the prizes offered, are as follows:

DOUBLE HANDED TEAM.

First Prize	$300
Second Prize	240
Third Prize	100
Fourth Prize	60

Weight of hammer limited to 8 lb.; ¾ steel; time 15 minutes.

SINGLE HANDED (UPPERS).

First Prize	$200
Second Prize	100
Third Prize	50
Fouth Prize	25

Weight of hammer limited to 4 lbs.; handle limited to 14 inches out of head; ¾ steel; time 15 minutes.

SINGLED HANDED (DOWN STROKE).

First Prize	$200
Second Prize	100
Third Prize	50
Fouth Prize	25

Weight of hammer limited to 7 lbs.; handle limited to 14 inches out of head; ¾ steel; time 15 minutes.

Gunnison granite will be used. For the upper it will be raised six feet above the ground or platform.

Entries to Rock Drilling Contest Committee, Colorado Springs, Colo. Entries close on night of July 31.

No entrance fee.

WOODLAND PARK

A troupe of strollers players encamped in town last Friday and in a small circus tent gave what purported to be a rendition of "Uncle Tom's Cabin," much to the disgust of the few who attended the farcical performance. They imitated the larger combinations in that they lived in a baggage car and gave the hotels the go by.

Summer travel seems to have set in this way, and the hotels are comfortably full, and the patrons are evidently contented to rest a while with us. For this reason this is the ideal spot in which to rest and recuperate.

Last Thursday about 1,300 people of Pueblo came up and enjoyed a day of rest and recreation in our beautiful groves. They were a representative lot of the better element of little Pittsburg, and evidently had a pleasant time. Out of the whole aggregation we noticed but one man who had indulged in too much booze and he was just drunk enough to be funny. Come again Pueblo, and if your committee on arrangements will extend an invitation we will join you in a royal good time.

C. F. Weller, wife and daughter, Mrs. Clarke, of Omaha, Neb., called on their cousins, Mr. and Mrs. W. P. Meek, last Saturday. Mr. Weller is president of the Richardson Drug company of Omaha, and is [illegible] a week at the Hotel Ramona at Cascade, thus escaping the scorching heat of the Missouri valley.

W. McAlpine, the saw mill man of Pemberton, was in town last Saturday looking much improved in health. He still retains a vivid recollection of his Klondike experience and it is only owing to an indomitable will and a splendid constitution, that his grave was not made among the hills of the frozen north.

The Pueblo people who had occasion to patronize the Hotel Woodland last Saturday, were well pleased with the treatment at the hands of the manager, Billy Burnside. The Woodland grove is an ideal place for a picnic.

Mark McClellan came down from Trapper last Saturday and spent Sunday with friends in town. He is rapidly becoming an expert telegraph operator, and will soon be holding down a key for the Western Union.

A heavy trade is coming to our merchants from Green Mountain Falls, owing to the fine stocks they carry, and the reasonable prices of their commodities. We have three general stores and two groceries, and two meat markets.

Miss Edith Ricken, daughter of George Ricken of Gillett, is visiting Mrs. W. C. Saunders.

R. J. Mansfield, wife and daughter of Glen Cove, which is the upper half way house on the Cascade carriage road, were in town last Wednesday on business. Their home is near Steubenville, Ohio.

Dr. Weight and daughter, of Leon, Iowa, passed through town on their way home last Monday, will spend a few days at Manitou and the Springs while en route.

Mrs. C. J. Coxe of Burlington, Iowa, went to the Springs from Banter City for a few days last week.

Woodland Park will send a large delegation to Colorado Springs this week to take a hand in the festivities, for it is a well-known fact that the people of the Springs never do things in a half-hearted way, and we propose to enjoy everything that offers.

Pitching quoits (horse shoes), seems to be the most absorbing amusement in town at present, among the unemployed part of the male population.

The matched game between the Gillett Giants and the Arcades of Colorado City, last Sunday failed to materialize, for some unknown cause.

Mr. and Mrs. W. E. Meek visited friends at the Hotel Ramona last Sunday.

Alderman Hunziker drove down to Green Mountain Falls last Sunday with his family to enjoy the performances there.

The committee on arrangements for the veterans reunion, to be held here in August, are working hard to perfect arrangements for a good time. Watch the date.

BIJOU BASIN.

Mr. Francis Capell was in the Basin looking after the interests of his cheese factory here.

Mr. and Mrs. Z. L. Holden visited in Colorado Springs last week.

Haying is the order of the day here now.

We have had some good rains the last week or two.

Mr. John Baxter is the champion poultry raiser. He has over 350 young chickens.

Mr. John McCormick has been carrying the mail from Peyton to Bijou Basin lately.

Mr. H. Matthews, the road overseer, has been working on the county road here this week.

Beautiful Hair makes Beautiful Women

NEWBRO'S HERPICIDE MAKES BEAUTIFUL HAIR, because it destroys the dandy microbe at work upon the hair roots, thus making dandruff and falling hair impossible, and promoting a thick, luxuriant growth of hair, increasing the owner's good looks fully 100 per cent.

It will also cure your father, brother, husband or sweetheart of any scalp affection they may have, even baldness, for it works like a charm. Try it on yourself, then you will gladly recommend it.

For Sale at all First-Class Drug Stores.

ONE FARE ROUND TRIP

To table points on Rio Grande R. R. west and south of Pueblo, August 5 and 20, and September 10. Long limits.

E. H. ROLLINS & SONS,

OFFER FOR INVESTMENT

$100,000.00

LEGAL NOTICES

NOTICE TO BONDHOLDERS.

To whom it may concern:

Notice is hereby given that the Colorado Springs, Colorado, will, on the [illegible] day of August, A. D., 1901, at the Chemical National Bank of New York City, New York, or at the office of the city treasurer of the city of Colorado Springs, Colorado, pay the full and [illegible] sum, up to and of the thousand ($1,000) dollars, principal of one thousand (1,000) dollars each, being the [illegible] of a series of ten (10) bonds of the denomination of one thousand (1,000) dollars each, bearing date July 1st, 1899, bearing six (6) per cent interest, issued by the city of Colorado Springs, Colorado, on the 1st day of July, A. D., 1899, maturing on the 1st day of July, A. D., 1909, the city of Colorado Springs, Colorado reserving the option to pay said bonds or any part thereof on the 1st day of July, A. D., 1899, said bonds being issued and known as "bridge and viaduct bonds" and being sold in the first instance to A. M. Kidder & Co., Boston, Mass.

The said bond number one (1), above mentioned, the city of Colorado Springs, Colorado, hereby to pay on the 1st day of August, A. D., 1901, and will cease to pay interest after the 5th day of August, A. D., 1901. Edward T. Davis, Acting City Treasurer of Colorado Springs, Colorado.

First publication, July 8, 1901.
Last publication, July 29, 1901.

ONE NIGHT TO CHICAGO

CHICAGO, UNION PACIFIC AND NORTH-WESTERN LINE

The Train for the East is
The Chicago Special.

Leaves Denver daily at 8 p. m. via Union Pacific and Northwestern lines, arriving in Chicago 9:00 p. m. the evening. No change of cars; all meals in dining cars. You can also leave daily at 10:30 p. m. and arrive in Chicago 2:45 the second morning. For tickets and reservations apply to ticket agents connecting lines, or address,

H. WHEELER,
General Agent, 501 Seventeenth St., Denver.

CALIFORNIA BOOKS.

Handsome Series of New and Useful Publications.

The Southern Pacific company has published for free distribution the following books and folders which may be obtained from any Southern Pacific agent, or T. H. Goodman, general passenger agent at San Francisco. If you apply by mail inclose a stamp for each publication.

RESORTS AND ATTRACTIONS ALONG THE COAST LINE is a handsomely illustrated folder giving a description of the health and pleasure resorts on the coast between San Francisco and Los Angeles.

SHASTA RESORTS, embellished with beautiful half-tone engravings, describes the scenic and outing attractions of the vast and wonderful Shasta region, the grandest of pleasure grounds.

CALIFORNIA SOUTH OF TEHACHAPEI tells all about the charms of that remarkably favored semi-tropic garden spot, Southern California.

A HANDSOME MAP OF CALIFORNIA complete in detail, reliable, artistically indexed, and full of information about the state's resources. It is the only publication of its kind conveniently folded for pocket use.

SUNMIDE OUTING No. 3 is a thirty-two page folder devoted to the summer attractions in the Shasta Region and Santa Cruz mountains. It appeals more directly to that large and growing class of recreation seekers who prefer this popular form of outing.

PACIFIC GROVE is the Chautauqua of the west, and this folder not only describes the pretty place itself, but gives a programme of the religious and educational meetings, conventions, schools, etc., to be held there this summer.

Other publications are: Lake Tahoe, Geysers and Lake County, Yosemite, Hotel del Monte, Pacific Coast, each bristling of information about the places named and printed in the highest style of the art.

A variety of California literature, practically illustrated, describing its resources, famous resorts and numerous wonders, also maps and folders showing routes, through trains, and other valuable information, may be obtained by addressing William R. McAllister, general agent Southern Pacific company, 1112 Seventeenth street, Denver, Colo.

SUMMER RESORTS

NOTICE TO FISHERMEN.

The district court, by injunction, has stopped the pollution of the streams in Gunnison county. The 440 miles of famous trout streams in this county will again furnish the old-time sport they once did. The La Veta hotel at Gunnison is centrally located for reaching all of them within ten miles. In the vicinity of Gunnison more trout weighing 4 to 12 pounds have been taken than from any other stream in the world. Yours respectfully, La Veta hotel, Gunnison, Colo.

TO RENT BUSINESS.

TO RENT—Money at low rates. The Colorado Investment and Realty Co., Post office block.

FOR SALE REAL ESTATE

SOUTH END REALTY CO.

701 S. TEJON 'PHONE 483-A.

HAD YOU EVER THOUGHT OF IT BEFORE?

That ten years ago Colorado Springs was a town of only 10,000 and today we have upwards of 30,000 people. Pueblo results on 10 years hence, it then we will have a city of 70,000 inhabitants.

Don't monkey with the statement as FACTS ARE STUBBORN THINGS.

MORAL.

If it's a home you want, buy it now.

Nice 2 room house, water inside, sewerage, set to fruit and shrubbery, lot 44x207; $250.00 down, balance $10 per week. Price, $[illegible].

7 room modern house, furnace, electric lights, sewerage, range, etc., close in. Only 2 blocks from city hall, lot 75x190. $1,000 down, balance $30 per month. Price, $3,500.

Or will exchange for smaller place in south end.

A model home, in north end, of 8 rooms, large cellar, cemented graves, electric lights, furnace, heat, strictly up-to-date. Price, $5,000. Wants to exchange for nice little home of about 3 rooms in south end.

7 room house, north end, water inside, set to fruit and shrubbery, lot 50x150. Belongs to non-resident. Must sell quick. $1,000 down, balance easy. Price $1,700.

Equity in 6 room modern house, located on Tejon St., for sale or rents for $25 per month. Will trade for teams or anything of value.

Money to loan on city property.

Houses and rooms to rent.

SOUTH END REALTY CO.,
701 South Tejon Street.

FOR SALE.

TWO (2) GREAT BARGAINS.

A corner lot, close to business, south and west front, 50x150, with plenty of fruit and shade, also good lawn and fences. Well worth $2,000. On this lot is a 7 room house that rents for $30 per month, a barn with plenty of room for horse, buggy and feed. The buildings need some repairs but notice the price. The whole thing goes for $2,500.

ANOTHER

A 6 room house, with electric lights, gas and coal ranges and full lot, in the north end on one of the best streets and less than 15 blocks out. On account of the owner being obliged to move away, we have cut the price from $3,750 to $3,500. These are snaps. See them.

C. E. TYLER & CO.
17 N. Tejon St. Tel. 435-A.

$4,100 new 6 room fully modern house, new 4 room fully modern cottage, except furnace, lot full size, 50x150, 3 blocks from college, everything new and first-class. Rentals $35 per month.

CELEBRATE, YES, CELEBRATE!

The Quarto-centennial by investing in Colorado Springs real estate and grow with the city. For grow it will, as sure as old Pike's Peak continues to exist. Quit paying high rent and buy a home. A home of your own, even though you may be obliged to go in debt for it. Debt, which should cause greater activity and deprivations has been the making of many a man. Try it, and be convinced. I have houses and lots of almost all sizes, prices, terms and locations. Should you decide to celebrate as per ad, be kind enough to come to me for prices, terms and locations. Yours for business,

BERT WISE,
Room 16, 115½ E. Pike's Peak.

FOR SALE

5-room cottage on Colorado avenue; porcelain bath; lot 50x150. Can be bought for $2,100.00

FOR RENT—UNFURNISHED.

5-room house, modern, on North Wahsatch ave.

4 room cottage, modern, on North Corona St.

7-room house, on East Dale St.

RICKERSON & CO.,
Room 20, Durkee Bldg. 'Phone 511.

COOL AND SHADY

is the way you will find it on Cheyenne creek. We have a six room house and an acre of ground. Corner. Cheyenne creek runs across the front. A beautiful place worth $2,500. You can buy it this week for $1,600.

COTTEN, TERRILL & GARLICK, Agts.
24½ North Tejon St.

Our special sales this week are: A strictly modern new house, 3 rooms, north. Only $1,500.

10 room rooming house, modern, barn, arranged for three families, good investment, $3,700.

Good business chance on Pike's Peak Ave. Investigate this quick.

M'MANNIS REALTY CO.,
De Graff Bldg.

FOR SALE REAL ESTATE

FOR SALE—THREE BARGAIN COUNTER SNAPS.

A pretty, new, modern, except furnace, 5 room cottage on the west side. With a south front, lawn, lot 50x150 feet, and only a short block from Colorado avenue. We thought it cheap when we quoted it at $1,900, but it is going to be sold for $1,775, or say a reduction of $175. Very easy terms. You saw a large picture of it in the Gazette.

Another west side cottage that is a bargain. It has 5 rooms, modern, except furnace, with plenty of closets and is conveniently arranged and finely finished throughout. You can buy the furniture just as it stands, at one-half its value, if you want it. There is a large porch, lawn, nice fence, lot 50x150 feet. Just off Colorado Ave. Price, $2,200. Easy payments.

A cottage on North Walnut street, just finished, 5 rooms, lot 40x120 feet. Price, $1,500 or an even $100 less than actual cost and $200 down secures it. Balance easy monthly payments.

We have houses for sale and to rent in all parts of the city and at all prices and all cheap for the price. We also have some rare bargains in fruit lands on easy terms.

If you are looking for a home we can save you enough on the purchase to pay for the furniture. If you want to borrow money, don't forget us. If you want to lend money come and see us. If you want to rent a house, we have what you are looking for. If you have a house to rent we will find you a tenant. If you don't want anything come up and tell us or "we'll know the reason why."

WEATHER FORECAST.

Washington, July 28.—Forecast for Colorado: Cooler and partly cloudy Monday, with local thunder storms. Tuesday fair in western, probably local thunder storms in eastern portion; winds northerly.

Satisfied people wear Ashby's spectacles.

Trunks repaired. Wise, 14 Pike's Peak.

Piano moving a specialty. The Colorado Springs Transfer Co., 12 Pike's Peak.

They Have Money.

The Colorado Investment & Realty Co., P. O. Block, has $50,000 to loan on real estate, lowest rates.

BORN—Friday, July 26, 1901, to Mr. and Mrs. Herbert N. Barney, of 44 Block M, Pueblo, an 11-pound daughter.

GERMAN LUTHERANS—The German Lutheran services at the G. A. R. hall, corner Huerfano and Cascade, are growing in point of attendance. Rev. A. Lussenhop, the pastor of the congregation, is building up a strong organization in Colorado Springs.

SPECIAL MUSIC—Especially attractive music was a feature of the service at the First Presbyterian church last night. Mrs. Crampton sang "O Rest in the Lord." The sermon was on the subject "The Old Testament, Many Books, Many Subjects, Many Centuries, but One Message."

HORTICULTURAL SOCIETY—The regular meeting of the Horticultural society will be held this morning at the residence of Mrs. W. R. Jewett, 1507 North Cascade avenue, at 10 o'clock. It is earnestly hoped that all members will be present as there is much work still to be done before the Horticultural show opens.

GEORGE B. HAWKES—A number of Colorado Springs people will be interested in the announcement of the engagement of George B. Hawkes of the present year's class at Hartford Theological seminary to Edith M., daughter of Senate Chaplain Clarence H. Barber of Manchester, Mass. Mr. Hawkes is a son of Rev. W. S. Hawkes of Springfield, Mass., and was a member of the class of 1895 at Colorado college.

ROOSEVELT TO FISH—It is said that after the Quarto-centennial celebration is at an end Vice President Roosevelt is going to take his last trout fishing in Colorado streams. He is an expert angler and has fished in this state before. Colonel Roosevelt will be accompanied on his outing by Dr. Webb and Philip B. Stewart, companions on his lion hunt last winter. It is probable that most of the time will be spent along the White river.

WAS NOT SENSATIONAL—An unreliable local sheet published in Colorado Springs yesterday morning stated that R. G. Seymour had been involved in a fight in Jones & Wellington's drug store on Saturday night. The fight in question took place at 11 o'clock at night and was fully and correctly reported in yesterday's Gazette. Mr. Seymour is employed by the Gazette and was at his desk in the Gazette office from 7 o'clock Saturday night until 3 o'clock Sunday morning.

BUYS A BUSINESS—The Colorado Investment and Realty company has taken over the loan and insurance department of the business of Messrs. Thurlow, Hutton & Williams, together with the loan, insurance and real estate business heretofore conducted by Mr. Frederic D. Tomlinson. Its officers and directors are men of wide experience in the several branches of the business, and of long residence in Colorado. The company will conduct a general loan, real estate and insurance business.

1400 Colored Shirt Waists

is the number we have at the present time. We do not intend to carry over any of these waists to next season. They must be sold. Cost and former selling price are not considered. Many of these lines are broken. Early buyers will get the best but we have plenty for all that come.

1400 SHIRT WAISTS, In Five Lots at

50c, 69c, $1.19, $1.50, $1.95

BETTER ORDER SUPPLIES MONDAY.....

for fair week—you'll be busy and have company—and want to go sight-seeing yourself—and a dozen reasons will occur this week which will make you glad you ordered in time.

No matter how large your order or how small if it's anything in Groceries or Meats, we are ready to do your bidding—promptly and satisfactorily.

PLUMMER BROS.
Phone 271. 128 N. Tejon St.

About Your Coffee

Are you "cranky" about its quality—want it just right in strength and blended just right for flavor and aroma? If you are that kind of a coffee drinker you're just the person we want to see, for we can suit you better in Coffee than you have ever been suited—and the price won't be a bit more than you have been paying, either. Come in and see us "we're coffee-cranks," ourselves.

BURGESS
112 N. Tejon.

A Cool Store

Good ice cream soda tastes better in a cool room. This is by far the coolest store in town—cool even on the hottest days. Pure fruit juices, pure cream, all ingredients pure and mixed in right proportions produce at our fountain the best of ice cream sodas.

Best phosphates, too.

F. L. GUTMANN,
PURE DRUGS.

Remember we
Sell no Liquors.

We Only Charge What It's Worth

for filling a prescription—just the cost of ingredients and a fair price for the "know-how." No high prices, although our twenty years' pharmaceutical experience gives you absolutely the best service.

Next time try

HARRISON'S
322 North Tejon

Don't give up your money

for poor coal that's as hard to burn as a fireproof building. The quality of fuel lies in its combustibility. To get what will ignite readily, give a steady heat, and reduce completely to ashes, order from us. Superior shipping facilities, close buying and short prices make us the consumer's friend. We economize for our customers. Anthracite $7.00 a ton, delivered.

Dollinger & Harrison,
Successors to WM. LENNOX.

Dry Hot Air Baths

Superior to Hot Springs Turkish or Vapor Baths
For Treatment or Pleasure

They will give quick relief to cases of Acute, Articular, Chronic or Muscular Rheumatism, Stiff Joints, Sore Muscles, Gout, Neuralgia, Lumbago, Sprains, Chronic Kidney or Liver Troubles, Malarial Poisoning and Acute Alcoholism. Will remove Nicotine or any other poisonous substance from the system. JUST THE THING FOR THAT "TIRED FEELING."

OZONE AND MEDICATED AIR

For Catarrh and diseases of the air passages.
X-Ray for diagnostic purposes and treatment of skin cancer.
ALL KINDS OF MEDICATED AND PLAIN BATHS.

The Electro-Thermatorium
124 South Tejon Street. COLORADO SPRINGS, COLO.

PRESCRIPTIONS:

receive the most careful attention; are compounded by a pharmacist of long experience, from pure, fresh drugs.

Imported and Domestic Perfumery

is one of my leading specialties. Every good make is represented in this varied stock. PROMPT DELIVERY. NO LIQUORS.

Henry Tamm, Cor. Cache La Poudre and Tejon. Plaza Hotel. Phone 189.

Electrical Service

of all kinds, prompt and effective, we offer you at the smallest cost for reliable work. Fans and fan motors, lights, phones, bells, batteries, all electrical supplies we have in stock. We do wiring and installing. We will protect your house with burglar alarms, so you can sleep in comfort or go away this summer and have things safe. Get our estimates and learn how very inexpensive is the service we give.

Electric Supply Co.
A. E. VEST,

Ranches Wanted!

We have a spot cash purchaser for a small tract of patented land with good water right and controlling plenty of outside range for cattle.

Anyone having the right kind of property at the right price can make a quick cash deal, as our client will purchase within a few days. Bring in a full description of land and improvements. Would prefer something south, near the foothills.

C. F. TYLER & CO. N. Tejon St.
